News of the Morning.

Thursday was the anniversary of WASHINGTON's death.

There is a fair prospect that the Union men will elect a majority of the delegates to the Alabama State Convention.

The extradition case of the fugitive slave JONES, *alias* Anderson, will be decided to-day. The Toronto authorities are making large preparations in the event of an attempt to rescue the prisoner.

A destructive fire occurred at Memphis, Tenn., Thursday night, destroying property to the amount of $175,000; insured for $59,000.

It is stated that Senator DOUGLAS will soon make a speech in the Senate, in which he will declare it to be the duty of the President to resist secession by force of arms.

The steamer Goodie Friends and South Bend, collided to-day some fifty miles above Memphis, the latter sinking. Several lives were reported lost.

A fire at Newark, N. J., yesterday, destroyed property valued at $30,000.

Courage the Antidote for Panics.

The *New York Commercial Advertiser* says: "It is unbecoming in a great people to give way before they have come face to face with danger. Our National character is likely to suffer from the practice, fast growing into a habit, of getting easily frightened by a money panic. Timidity is one cause of the intensity of every financial trouble."

The disasters which befel the country in 1857, were greatly increased by the sudden alarm which seized upon almost every person. There was then much real cause of distress; but this was intensified by a portion of the daily press, which kept fanning the flame into a general conflagration. While the evil was growing, these papers kept publishing mainly, or altogether, such matter as tended to produce the most gloomy apprehensions and dispelled every vestige of confidence in the business world. When the crisis reached its height, a short panic was made, but as the rule of common sense returned, the same sensation journals set up a shout of glad surprise that the public had been so much more frightened than hurt.

But journalism aside, the question is, are the people of this part of the country to become the prey to a clique of political desperadoes, or Wall Street bears, every little while? The prices of certain descriptions of securities may have gone up to too high a figure; if so, let them sink to their intrinsic value, and have done with it. And as to political affairs, if we go out of our senses with fear will South Carolina be any the less unreasonable on that account. This takes it for granted that they have not only made up their minds to go out of the Union, but that they will carry these intentions into execution—a point that as yet is far from being established. But go or stay, there will be no war, and trade will resume its course next Spring with its wonted activity. There will be some suffering at the North in the meantime, from debts not paid at maturity and the partial suspension of banks at the South; from both these causes and the scarcity of provisions.

The last named evil is already beginning to make itself seriously felt even in South Carolina. By the way, we cannot help thinking that a million bushels of corn would be one of the most useful and honorable offerings that the North could now make to the South. We have the article, and our neighbors along the Gulf are in danger of suffering for lack of it. At all events let us act like rational, courageous, intelligent citizens. When we have to look danger in the white of the eye half the peril will have passed away.

Italy.

The Ex-King of Naples, in his mountain fortress of Gaeta, is determined to die game, though discontent and treachery are at work with the garrison. The poor King has at last been obliged to trust the conduct of the defence of Gaeta to the old and somewhat decrepid General VIOL, now in his 80th year. By the intervention of the French this fortress remains accessible to vessels, and supplies can be easily introduced to the beleaguered city.

In the city of Naples the lazzaroni, disappointed at not receiving the good things they expected at the hands of VICTOR EMMANUEL and the Viceroy, have clamored for the reinstatement of GARIBALDI and the removal of the obnoxious FARINI. We hear, also, of reactionary movements in five provinces of the Abruzzi, whither Piedmontese troops have been dispatched to subdue or conquer.

The Italians seem to be too excited to respect the retirement of GARIBALDI. The reports of ill-treatment which were received not long ago, are now confirmed. It now turns out that he asked of VICTOR EMMANUEL two things—one was that the decrees which he had signed during his directorship should be respected, so far as they did not contravene the constitutional laws of the country; the other was, that the rank conferred by him on his companions in arms, should be respected. Both of these demands were peremptorily refused. In consequence of this refusal, GARIBALDI declined accepting the honors offered him, and retired to his island home, where the King has tried to glaze over the indignation offered to the great Liberator, by decorating a villa and laying out pleasure grounds for him.

ANTI-SECESSIONISTS.—Hon. JOHN FORSYTH, in his paper, the Mobile *Register*, affirms that he is not one of those who look upon the dissolution of the Union as a holiday amusement, or drunken frolic, "or a thing to be done before breakfast." If done in haste, it will be repented at leisure. He proceeds at some length to counsel moderation while in favor of secession.

Parson BROWNLOW, of the Tennessee *Whig*, throws down the gauntlet to the secessionists. He tells them that if any one desires to do him a personal injury, he can be found at his office every day in the week, excepting always the Sabbath. He will not fight on Sunday.

A DEPUTY MARSHAL OUTWITTED.—It is said that Caleb C. Woodbury, the postmaster at White Pigeon, who was arrested some time since on a charge of robbing the mail, but who committed suicide, is not dead after all. It is reported that *he only died for a short time*, to elude the officer, and that he is now in Chicago. Deputy U. S. Marshal E. W. Moore, who did not know whether the suicide was sham or not, was cheated of his prisoner, has gone to Chicago to learn the truth of the report.—*Detroit Tribune Dec. 14.*

An Englishman Lynched in Mississippi.

He is Flogged, Tarred and Cottoned for Alleged Tampering with Slaves.

From the Missouri Democrat.

A respectable looking man named William Smithyman, a native of England, and for several years a resident of Juneau county, Wisconsin, arrived in this city on Tuesday, from Memphis, by the steamboat, J. D. Perry. Mr. S. was driven from Mississippi last week after suffering severe injuries for crimes alleged against him, but of which he declares his entire innocence. He was formerly employed in this city for a few weeks, as a miller in the Planters' Mills, on Franklin avenue, and went to Mississippi for employment in June last. He bore letters of recommendation and character, and obtained work in Panola and De Soto counties, near the Tennessee line. He worked for several parties, dressing mill-stones, and met with no opposition from any party whatever till a week ago yesterday, when he started from Looxahomie, De Soto county, for Senatobia station, on the Tennessee & Mississippi railroad, seven miles distant, employing a negro to carry himself and trunk in a wagon to the railroad. He was then on his way to Memphis.

Arriving at Senatobia after dark, he proceeded to look up some freight for the negro's owner, and in doing so went into the freight depot. While there three or four persons approached him, and asked him where he was going and what he was doing. He told them he was looking for some freight for Looxahomie, but they charged him with being ad abolitionist and a suspicious person, and seized and threw him into a freight car, which they locked, and then went up into the village to tell the story. The negro was also arrested, and as afterwards appeared, was threatened with instant death if he did not confess that the man in the freight car had endeavored to persuade him to run off. The negro thinking, probably, to save himself from torture, said that such was the case, but, notwithstanding the confession, he was severely flogged. About 10 o'clock a crowd of thirty or forty returned to the railroad station, took Smithyman out and marched him into the woods. There they stripped him naked, notwithstanding the weather was intensely cold, and gave him a large number of stripes, the victim thinks two hundred, with a thick leather belt sometimes flat and sometimes with the edge.

A man who appeared to be a doctor, then advised them to desist, saying that they would finish the job the next day. They then put him back in the freight car, with nothing but his clothes and an old rug to protect him during the night. In the morning he was released and permitted to pay *fifty* cents for a cup of coffee. An armed force styling themselves "Minute Men," then took him into custody afresh, went into the woods again, made him strip, tied his hands around a tree, and then shaved his head as close as they could. The crowd urged him to tell all about his doings in the interior, and that they knew he was guilty of exciting slaves to insurrection, had tampered with them, and all that. Three or four said that if he would confess, his life should be spared, but that if he did not he would be strung up. By this time Smithyman was half dead from exhaustion and fright, and believing that it was his only chance of safety from hanging, he boldly avowed that he had tampered with slaves. With a shout, the eager listeners seized him and some were for hanging him right off.

An attempt was made to get a rope around his neck, but others were so anxious for another operation that the would be executioners failed. Smithyman was stripped, and liquid tar, almost hot enough to scald, was poured over his head, and half blinded as he was, the victim was not allowed to put his hands to his eyes to keep the tar from blinding him altogether. They then stuck him all over with loose cotton. After this was through they told him that he must start for Memphis immediately—forty miles off—and not stop till he reached that city.—They gave him five minutes to put on his clothes, and while he was pulling off some of the cotton, several of the mob stood by kicking his limbs with their thick boots, black and blue, the marks of which kicking he still bears. They then allowed him to start. Smithyman walked all the way to Memphis, and took the boat to this city.

We give the above statement for what it is worth. The man Smithyman, is an honest, sober man, and bears evidence on his person of the infliction of very severe injuries.

The Reedsburg Mills Entirely Consumed—Loss from $7,000 to $10,000!

About half past twelve o'clock on Saturday morning our citizens were startled from their slumbers by the cry of fire, and on looking for the cause, the Grist and Saw Mills of J. & S. Mackey, were discovered to be in flames. When the first alarm was given, the fire had made such progress that nothing could be saved. By great exertions on the part of our citizens the dwelling house of Mr. Thos. Markee, head miller, standing a few rods from the mills, was saved.

In addition to the loss of the mills, the store house, but a few feet distant, containing about two thousand bushels of wheat, and some other property was also consumed; some of the grain was taken from the ruins, looking bright and sound, but was too badly smoked to be of any value.

The Messrs. Mackey estimate their loss at about $7,000; which does not include the amount of custom grain in the mill, which must have been considerable. The total loss cannot fall short of $10,000, to say nothing of the damage to the town in the loss of trade, and the inconvenience to our citizens until the new mills are completed. There was no insurance on any part of the property. The fire is believed to have originated in the south end of the saw mill, from a dish of burning coals carried through it on Friday afternoon.

Workmen are now employed in removing the rubbish, to make room for the foundation of the new mills, and the proprietors are intending to push the work forward as fast as possible; but it must be nearly eight months before they are ready to run. Mean time we presume our merchants will keep flour on hand to sell or exchange for wheat.—*Reedsburg Free Press, Extra, Dec. 11.*

RAREY THE HORSE TAMER IN NEW YORK.—In the *World* of Saturday was announced the arrival of Rarey the horse tamer as one of the passengers of the steamship Asia.—Large numbers called upon him on Saturday at the Fifth avenue hotel, where he is stopping. There is an increasing desire to witness an exhibition here of his marvelous horse taming feats. The practice of his wonderful art having been exclusively abroad thus far, our metropolitan turfmen, and connoisseurs in equine flesh are anxious to give him an opportunity to tame into submission some of their vicious and intractible steeds. Arrangements, it is probable, will be speedily made, if they have not been perfected already, for a series of public exhibitions in our city.

Mr. Rarey is a native of Genesee county, this State, and is now about forty years of age. He was comparatively unknown until a little over two years ago, when Mr. John Goodenough, of Toronto, Canada, witnessing an exhibition of the complete subjection to his will of a wild zebra, thought the same principle might be turned to account in taming horses. Under the charge of Mr. Goodenough Mr. Rarey went to England.—He met with the most astonishing success. Everybody went to see his exhibitions. The nobility became his patrons, and Queen Victoria and her court viewed with wonder his skill in rendering permanently docile the wildest and most unmanageable of horses. His complete victory over Cruiser, set down as the most vicious and unmanageable horse in England, is well known.

At the farewell exhibition given by him at the Crystal Palace, in London, just before his departure for this country, Cruiser was introduced. His wild and dangerous ferocity had been entirely subdued, and he had been converted into the quietest and most docile of animals. While abroad, Mr. Rarey visited nearly all the continental countries, and portions of Asia. The same success attended him wherever he went; and wonderment at his miraculous skill in controlling fiery and blooded horses.

There is nothing about the personal appearance of Mr. Rarey indicating unusual strength of will. He is less than the medium height, of delicate form, hair light and sparse, with side whiskers and moustache of English style. He dresses fashionably, and is very gentlemanly and unassuming in his manners.—*N. Y. World.*

THE Vicksburg Whig says:

"JUST ONE ITEM—A TAX OF $300,000.—The Post Office receipts of the State of Mississippi amounted to $101,549. The expenditures are $371,904, leaving a deficit of $266,445. This sum will have to be raised, when the State secedes, by direct taxation of the people. A tax of $300,000 for just one item, which cannot be avoided! Let these facts be considered by the people before they take the final step."

A Good Enterprise.

Almost every day subscribers in the city are complaining to us that the SENTINEL has been stolen from their doors. The carriers generally deliver the paper before daylight, which gives the paper thieves an opportunity "to rob the door-steps" before most families are astir in the morning.

We commend the following good suggestion of the Detroit *Free Press*, to our Milwaukee mechanics, hoping that some one of them will think well of it, and start the enterprise here at once. Information in relation to the construction of boxes, &c., may be obtained at this office, if desired.

"An article which is very generally wanted is some kind of a box, arranged with lock and key, which can be fastened to fence-posts, door-steps and other convenient localities, for the safe keeping of newspapers which are distributed by the carriers. The general complaint of newspaper subscribers is that their papers are stolen by thieves who follow the carriers around, and great ground of complaint no doubt exists. If some body would undertake the manufacture of these boxes at a reasonable price, they would find a ready sale. They can be made with a hole in the cover, or side, to put the paper in, and can be so arranged as to be securely fastened to a fence post without any trouble. During the winter some industrious mechanic may earn an honest penny for the benefit of his family by this enterprise."

MUNICIPAL COURT, Dec. 14.—The case of the State vs. L. L. Crounse, for obtaining goods and money under false pretences, came up this morning. The jury was empaneled, and after proceeding with the case, on the examination of the first witness, on motion of the counsel for the defence, the Judge instructed the jury to render a verdict of not guilty, it being impossible, under the law, to convict.

This case, according to the Judge's opinion, ought never to have been brought, as there could not have been any crime or fraud on the part of Mr. Crounse under the circumstances.

For the prosecution, the District Attorney and R. N. Austin; for the defence; A. R. R. Butler and M. G. Smith.

CHAPMAN'S RAILROAD MAP OF THE NORTHWEST.—We have been favored with a copy of this Map from the agents, Messrs. BAMFORD & BALDWIN. It presents a complete view of the Railroad system of the Northwest, embracing Ohio, Wisconsin, Indiana, Illinois, Michigan, Missouri, Iowa and Kentucky, and will prove very useful, both to the traveler and merchant. It is neatly bound in the shape of a hand book, and may be carried in one's pocket without inconvenience. A liberal discount will be made in selling it to the country trade. Orders addressed to BAMFORD & BALDWIN, Milwaukee, or Chicago, will be promptly filled.

SEEDS.—Cotton seed, it is said, will secede, which fact we will concede; but ask will cane seed, hemp seed and tobacco seed ac cede? Next, what will wheat seed, corn seed and hay seed do? Will they re-cede? Who is to inter-cede? Can the plan succeed? or, is it too seedy? Then again, if the plan should pro-ceed, how will the slaves be over-seed'd, when their numbers exceed?

We fear the logic of their deed;
Beware of leaning on a broken seed!

SEVERE ACCIDENT AND FORTUNATE ESCAPE.—Thursday evening, Rev. Mr. LOVE, of the Spring Street Congregational Church, accidentally fell from the loft of his barn to the ground, a distance of some twelve or fifteen feet, striking upon his shoulders and back. He lay for some time unable to breathe but finally recovered sufficiently to walk into the house. Fortunately no bones were broken, and it is hoped no serious results will ensue.

MILWAUKEE ART UNION.—The collection of paintings to be distributed to the subscribers of the Milwaukee Art Union, now on exhibition at Mr. BROOKS' rooms, corner Wisconsin and East Water Streets, over VAN COTT's, is very fine, being valued at two thousand dollars. The distribution will be managed by a committee.

Mr. BROOKS is a superior artist, and these pictures are worthy the attention of all lovers of Art.

THE GREAT AUCTION SALE of books at No. 163 East Water street, is beginning to attract much attention. The sales will commence every evening, through the Christmas week, at 7 o'clock. In addition to the auction sales, there will be a gift sale throughout the days, a valuable gift, worth from fifty cents and upwards, will be presented with every one dollar's worth purchased, and all books sold at publishers prices or less.

IN SELECTING Christmas presents don't forget GROVER & BAKER'S Sewing Machines. We use one in our family and know them to be all right. They have become the popular machine of this city and their sale is rapidly increasing. We understand, at their agency, 13 Newhall House, they are selling from ten to fifteen per week. dec15d1t

HOLIDAY BOOKS.—We had the pleasure of looking over the splendid stock of Holiday Books at STRICKLAND & Co.'s yesterday.—A more beautiful supply of presents we never saw. They have also a new lot of Stereoscopes and pictures, very appropriate gifts for Christmas.

REV. MR. CORNING having left the city for a few days' absence, desires us to say that his statement of the affair between the Young Men's Association, Mr. CAVERNO and himself, is necessarily deferred until the first of next week.

THE GIFT CONCERT.—The Gift Concert of the American Cornet Band takes place on the 18th, (Tuesday) at Albany Hall. The tickets are nearly all sold, but the few remaining are said to be the lucky ones.

FIRST PRESBYTERIAN CHURCH.—Rev. Mr. WILLIAMS, missionary from Turkey, will preach to-morrow in the forenoon, and Rev. Prof. BARTLETT, of Chicago, in the evening.

New Publications at the Library.

The Young Men's Association is making increased provision for the long evenings and its growing list of members. It is now in receipt of the first of a series of additions to the Library, which are in contemplation. One of the recommendations of this enterprise is, that while it presents greater facilities to those unable to possess themselves of a large private collection, it offers the best opportunities for making discriminating purchases, by previous perusal, to those who can.

Among the books just at hand, the ladies (we beg pardon, the novel readers,) will be rejoiced to observe a number of favorite authors, and duplicates of those most in demand. Should they still find difficulty in getting the book they want, we beg each one to bring a new member, and thereby enable the Association to add still more copies.

In Fiction, will be found the recent works of Dr. Holland, Thackeray, Collins Anderson, Mrs. Terhune, (Marion Harland,) Misses Evans, Parr, and Lane; ? and coming pretty near home, "Strickland's Old Mackinaw," and the late novels of Anthony Trollope, said to be much better *fictions* than those his mother told of us, years ago. To these are added several older works of established reputation.

In Travels, "Cottages of the Alps," by the author of "Peasant Life in Germany," now considerably read; Collins' "Voyage Down the Amoor;" Du Couret's "Life in the Desert;" Norton's and Arthur's "Italy;" Olmsted's "Back Country;" and Thomas' "Sketches of Western Africa."

Of Sporting and Military *Adventures* and purely *Juvenile Works*, which the boys will make a special note of, "Wild Life," and "Osceola," by Mayne Reid; Gen. Cler's "Reminiscences of an Officer of Zouaves;" "Wild Sports of the South;" "Wild Sports in India," by Capt. Shakespear, (which ought to be good, if there is anything in a name;) "Odd People," by Reid; Marryat's "Masterman Ready," &c., &c.

Of *History* and *Biography*, may be instanced, Helps' "Spanish Conquest;" the continuation of Palfrey's "New England;" Everett's "Life of Washington;" and "Autobiographical Recollections of Leslie," the artist, with additions by Tom Taylor, the Editor of Haydon's Autobiography, and "Memoirs of the Duchess of Orleans," by Prof. Schubert.

In Facetiæ, "Annals of Quodlibet," by J. P. Kennedy, whose pen appears not to have grown rusty with disuse. Apropos, of the prince of humorists, are two volumes of melancholy interest—"Memorials of Thos. Hood," collected by his children.

In the way of Essays, we have the "Latin Miscellanies" of Lord Macaulay; Greene's "Historical Studies;" Thackeray's "English Humorists," and "Occasional Productions," by the author of the delightful "Residence at the Court of St James," issued some years back.

Scientific members of the association are in luck, in the anticipated possession of a fine copy of Say's "Entomology of the U. S.," in two large octavos, (one would think it contained all the bugs in the universe;) a set of the celebrated "Bridgewater Treatises;" a second series of "Curiosities of Natural History," by Buckland; Lewes' "Physiology of Common Life;" Faraday's "Physical Forces," and a popularized work on "Health and Disease," by the editor of the "Journal of Health." Those who may have been mystified by Hamilton's metaphysics, may now consult his logic, to help them out of the jog. Architects will rejoice in the purchase of "Antiquities of Athens," and a work on "Villas and Cottages," by a partner of the late Mr. Downing.

Those who still read poetry, can now have a volume of Gerald Massey's; or, would look through a poet's eye, upon nature, may peruse Streets, Woods and Waters; or, haunted by a waif of poetry, the locality of which eludes memory, may find relief in the "Dictionary of Quotations," done in unrhymed and unmeasured, though not prosaic, prose.

Lovers of the drama can get a reading of Sheridan's "Dramatic Works;" politicians may prepare themselves for the campaign of '64, in the "Political Text Book;" and whoever would penetrate the intricacies of the international copyright law, or study the relations of author and publisher, should betake himself to Charles Reade's VIIIth Commandment.

We felicitate those who affect fine-art studies in the Society's possession of the concluding volume of "Modern Painters," "The Stones of Venice," and other works of Mr. Ruskin, who, though sometimes hobby horsical, has probably made the most valuable contributions to aesthetic literature which which have appeared, originally, in English.

The Association is also in receipt from the Department of the Interior, at the suggestion of our Representative in Congress, of a set of "Annals of Congress," from the organization of our Government, in addition to its regular quota of Congressional publications. This work should excite great interest at the present juncture. Also a handsome copy of the "Annals of San Francisco," from a returned Californian.

MUNICIPAL COURT, Dec. 14—John Dougherty and Michael Wren, drunk, fined $1 each and costs.

Levi J. Merrick and John Waller, violating ordinance in reference to removing stone, sand or earth from the beach of Lake Michigan. It was in evidence that the sand was taken from a lot, abutting on the lake, with the permission of the owner of such lot. It was, therefore, the opinion of the Court that the defendants were not guilty.

The jury in the case of Michael Walsh, brought in a verdict of not guilty.

THE MEMBERS of the "Young Men's Lyceum of Milwaukee" are requested to meet this (Saturday) evening, at 7 1-2 o'clock, at Good Templar's Hall in Bowman's Block.

The following resolution will be discussed at the meeting this evening:

Resolved, That the establishment of the Government of VICTOR EMANUEL, all over Italy, is the best settlement of the Italian question.

All interested are invited to attend.

W. A. COLLINS, Sec'y.

CHANGE OF PROPRIETORSHIP.—The *News* of Saturday morning contains the valedictory of J. R. SHARPSTEIN, and the announcement that C. H. ORTON was the new publisher. We have heard that BERIAH BROWN was to be editor, but no announcement to that effect was made in the sheet.

THERE will be a meeting of the First Ward Republican Club, at Bielfeld's Saloon at 7 1-2 o'clock Saturday evening.—A full attendance is requested, as business of importance will be transacted.

JOHN B. D. COGSWELL, Pres't.

ST. GEORGE'S SOCIETY.—The members of the above Society will hold a special meeting on Monday evening next, Dec. 17th, at 7 o'clock, by the requisition of the managers. GEO. SOUTHWELL, Sec'y.

WALL has a furniture sale this morning at 10 o'clock, at his auction room.

HEAVY DAMAGES.—Many of our readers will recollect the accident on the La Crosse railroad on the 26th of September, 1859, by which WILLIS MOSELY lost his life. MARY L. MOSELY, administratrix of the estate, brought an action against SELAH CHAMBERLIN for negligence. The suit was commenced five months ago in the Co. Court of Milwaukee, and yesterday a verdict of $4,500 damages was awarded to MARY MOSELY. Attorneys for defendant, FINCH, LYNDE & MILLER; for plaintiff, SMITH and SALOMON. Mrs. MOSELY was left entirely destitute by the death of her husband, and was depending at the time of WILLIS MOSELY's death, upon his labors. This verdict will, therefore, be quite an acceptable one.

LECTURES ON SPIRITUALISM.—Mrs. J. W. CURRIER, of New York, will continue her course of lectures on Spiritualism, at the Good Templar's Hall, Bowman's block, on Sunday at half-past 2 and 7 o'clock P. M. Admittance 10 cents.

Mrs. C. lectures in a trance state, and will answer questions propounded by persons in the audience, on subjects pertaining to Spiritualism, at the close of the lectures. The public are respectfully invited to attend.

dec15d1t

M. DEVILLIERS will give his fencing exhibition at the Academy of Music this evening. It is reported that the "Unknown Officer" will meet Mr. DEVILLIERS, and in such case we shall have a very exciting exhibition. Admittance 25 cents.

THE LARGEST CLOTHING HOUSE IN THE WEST.—It has become a universal custom with all who desire a fashionable, superior and becoming outfit, to make their selections from the Mammoth House of SPROULE & BENNETT, No. 150 East Water street. This establishment is fast gaining a reputation of keeping none but first class goods—ready-made clothing, as well as every variety of gents' furnishing goods. Their present stock for the winter trade, as well as their prices demanded, cannot fail to please all who call. For the worth of your money in clothing, go to No. 150 East Water street

OUR ADVICE TO ALL WHO ARE IN any way troubled with Erysipelas, Canker, Salt Rheum, Scrofula, or other forms of humor, is to use Dr. S. A. Weaver's justly celebrated and never-failing remedies for these complaints. We have no doubt, that at least half the chronic complaints in existence have their origin in some form of a humor, which only needs to be eradicated from the system, to save them from an untimely grave. We are glad that Dr. Weaver has turned his attention to this class of diseases which have been so long neglected and which have so rapidly increased in almost all parts of the world. The thousands who have already been cured, are but so many living certificates, appealing to suffering humanity, and attesting the worth of a truly valuable discovery.

THE ILLS OF MAN YIELD LIKE magic to the great powers of the Pain Killer.
KINSMAN, Ohio, May 30th, 1860.
J. N. H. HARRIS & CO., GENTS: I have for a few months past used Perry Davis' Pain Killer for DYSPEPSIA and LIVER COMPLAINT, and I must say it has done better for me than any other medicine that I have ever taken.
A friend of mine was afflicted with a severe cough, and was permanently cured by its use. I can recommend it as a valuable medicine to be kept in every house. Yours, &c., B. B. FELTON.

STATE OF WISCONSIN, MILWAUKEE COUNTY, ss.—In the matter of the proof and probate of the last will and testament of James McNiel, deceased, late of the County of Milwaukee.
Whereas, an instrument in writing, purporting to be the last will and testament of James McNiel, deceased, late of the County of Milwaukee, has been filed in this office; and whereas, application has been made by Catharine McNeil, praying that the same be proven and admitted to probate according to the laws of this State,
Therefore, it is ordered that said application be heard before me, at the Probate Office, in the City of Milwaukee, in said County, on the 7th day of January A. D. 1861, at 10 o'clock A. M.
And it is further ordered that notice shall be given to all persons interested in said will, of the time and place of said hearing, by publication in the SENTINEL, a newspaper printed in said city, for three successive weeks, once in each week, prior to the time of such hearing.
Probate Office December 14, A. D. 1860.

WHEREAS, THE MANITOWOC AND Mississippi Railroad Company, a Corporation duly constituted by the laws of the State of Wisconsin, did execute to the subscribers, on the first day of October, in the year A. D. 1856, a mortgage deed, whereby all their railroad, from its eastern termination in the village of Manitowoc, to the Fox river, at the village of Menasha, in the county of Winnebago, being forty-two miles in distance, constructed and to be constructed, together with all and singular the roadway and land procured or acquired, or to be procured or acquired, for rights of way within the limits aforesaid, together with all bridges, fences, privileges, rights, franchises, and real estate owned by said Company for the purpose of said road, or which would be thereafter owned or acquired by the said company, within the limits aforesaid, and all the tolls, income, issue and profits to be had from the same, and all lands which were or should be used and occupied for depots or stations, or which should be thereafter procured therefor, with all the buildings standing, or which should be erected thereon, together with all locomotives, tenders, passenger cars, freight cars, shops, tools and machinery owned or thereafter acquired by the said company, and all other property and things appertaining to the said railroad constructed and to be constructed within the limits aforesaid, including all its property, real or personal, pertaining to said railroad, within said limits, and all its rights, credits and franchises thereunto belonging, were conveyed to the undersigned, to be held by them in trust for and as a security to the bondholders of said company, for the payment of the bonds of the company, secured by said mortgage deed, and of the interest thereon as it should become due.
And whereas, by said mortgage deed, it is provided that if said railroad company should fail, neglect or refuse to pay the principal sum, or any part thereof, or any of the interest on any of the bonds of said company secured by said mortgage deed, at any time when the same shall become due, and payable according to the tenor of said bonds, when demanded, then, at the expiration of sixty days from and after such default, failure, neglect or refusal, in case such principal or interest should then remain unpaid, the subscribers hereto were authorized and directed by said mortgage deed, upon the written request of the holders of at least one-half of the said mortgage bonds issued under said mortgage deed then outstanding unpaid, to cause the said premises, real and personal estate, and property, rights and franchises, or so much thereof as should be necessary to pay and discharge the principal and interest of all the said mortgage bonds as should then be unpaid, to be sold at public auction, in the village of Manitowoc, in the State of Wisconsin aforesaid, or in the city of New York, on giving at least ninety days' previous notice of the time, place and terms of such sale, and of the real and personal property and estate, rights and franchises to be sold, by publishing the same in two newspapers of good circulation in each of the cities of Milwaukee and New York, in order to pay and discharge the principal and interest of the mortgage bonds aforesaid, and on such sale to execute and deliver to the purchaser or purchasers thereof a good and sufficient deed of conveyance in fee simple for the same, which will be a bar against the said railroad company, their successors and assigns, and all persons claiming under them, of all right, interest or claim of, in or to the said premises, and real and personal estate and property, rights and franchises, or any part thereof.
And whereas, the interest that became due on the first day of October, 1857, upon all the bonds issued by said company secured by the mortgage deed aforesaid, amounting to the sum of three thousand one hundred and fifteen dollars, was not paid by said Company, of which non-payment more than one-half of said bondholders have given the undersigned due and sufficient written notice, in full compliance with the conditions of said mortgage, and have required them to proceed to sell said property in order to pay the amount due them on said bonds.
Notice, therefore, is hereby given, that in pursuance of the authority in us vested by said mortgage deed, we will expose for sale at public auction, to the highest bidder, for cash in hand, or for the said outstanding mortgage bonds, or any of them, at the Merchants' Exchange, in the city of New York, on the 20th day of March, 1861, at 12 o'clock M. of that day, all and singular the Manitowoc and Mississippi Railroad Company, together with the privileges, rights, franchises, personal property and real estate of said Company, with all the rights, privileges and profits appertaining thereto, in order to pay off the indebtedness of said Company, to said bondholders, and the cost and expenses of this sale.

THE SENTINEL.

DAILY, TRI-WEEKLY & WEEKLY

RUFUS KING, EDITOR.

SATURDAY MORNING, DEC. 15, 1860.

"Like Master, Like Man."

Our "forcible-feeble" President, Mr. BUCHANAN, has an Attorney-General to his own liking. That law officer of the Administration has just given an opinion on the subject of "Secession," which tallies exactly with the Executive's views advanced in the message. The N. Y. *World* says of Mr. BLACK's pusillanimous *dictum*:

The Attorney-General of the United States gives "aid and comfort to the South Carolina secessionists, by his published argument to prove that if a State sets the Federal Government at defiance there is no practicable help for it.

Mr. Black hails from Western Pennsylvania, the scene of the famous whiskey rebellion. Without charging that he has inherited the opinions of the four western counties, it may not be indecorous to remind him that President Washington and his advisers had not in 1794, adopted the piteable theory of federal debility and incompetence which the chief law officer of the Government defends in 1860.

How different from the cowardly counsels of Mr. BLACK and the timid talk of Mr. BUCHANAN, were the stern advice and emphatic declarations of "Old Hickory," when, in 1832, South Carolina, for a fancied "grievance," threatened to "secede." Hear what Gen. JACKSON then said:

The laws of the United States must be executed. I have no discretionary power on the subject—my duty is emphatically pronounced in the Constitution. Those who told you that you might peaceably prevent their execution deceived you—they could not have been deceived themselves. They know that a forcible opposition could alone prevent the execution of the laws, and they know that such opposition must be repelled. Their object is disunion; but be not deceived by names; *disunion by armed force is treason. Are you really ready to incur its guilt? If you are, on the heads of the instigators of the act be the dreadful consequences; on their heads be the dishonor, but on yours may fall the punishment—on your unhappy State will inevitably fall all the evils of the conflict you force upon the government of your country.* It cannot accede to the mad project of disunion of which you would be the first victims—its first Magistrate cannot, if he would, avoid the performance of his duty—the consequence must be fearful for you, distressing to your fellow citizens here, and to the friends of good government throughout the world.

WELL SAID.—The Philadelphia *Press*, edited by Col. FORNEY, contains a long and able article on the state of the country, which closes with these pregnant words: "*And if, after all, the Southern Secessionists refuse the proffers of the Northern people, and insist upon breaking up this Government, let the consequences be upon their own heads. In that event they will find not only a united people in the Free States against them, but they must conduct their doubtful experiment of a Slave Republic with the voice of Christendom against them.*"

The Homestead Bill.

We give below a copy of the Homestead Bill, which passed the House of Representatives yesterday morning. This bill avoids the objections made by the President in his veto of the bill passed by the Thirty-fifth Congress, and is likely to become a law:

A BILL TO SECURE HOMESTEADS TO ACTUAL SETTLERS ON THE PUBLIC DOMAIN.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That any person who is the head of a family, or who has arrived at the age of twenty-one years, and is a citizen of the United States, or who shall have filed his intention to become such as required by the naturalization laws of the United States, shall, from and after the passage of this act, be entitled to enter, free of cost, one hundred and sixty acres of unappropriated public lands, upon which said person may have filed a pre-emption claim, or which may, at the time the application is made, be subject to pre-emption at one dollar and twenty five cents, or less, per acre; or eighty acres of such unappropriated lands, at two dollars and fifty cents per acre; to be located in a body, in conformity to the legal subdivisions of the public lands, and after the same shall have been surveyed.

SEC. 2.—*And be it further enacted*, That the person applying for the benefit of this act shall, upon application to the register of the land office in which he or she is about to make an entry, make affidavit before the said register or receiver that he or she is the head of a family, or is twenty one years of age, and that such application is made for his or her exclusive use and benefit, and those specially mentioned in this act, and not either directly or indirectly for the use or benefit of any other person or persons whomsoever, and upon filing the affidavit with the register or receiver, he or she shall thereupon be permitted to enter the quantity of land specified. *Provided, however*, That no certificate shall be given, or patent issued therefor, until the expiration of five years from the date of such entry; and if, at the expiration of such time, or at any time within two years thereafter, the person making such entry—or if he be dead, his widow; or in case of her death, his heirs or devisees; or in case of a widow making such entry, her heirs or devisees, in case of her death—shall prove by two credible witnesses that he, she or they have resided upon and cultivated the same for the term of five years immediately succeeding the time of filing the affidavit aforesaid, then, in such case, he, she, or they at that time a citizen of the United States, shall on payment of ten dollars, be entitled to a patent, as in other cases provided for by law: And provided, further, that in case of the death of both father and mother, leaving an infant child, or children, under twenty-one years of age, the right and fee shall enure to the benefit of said infant, child or children; and the executor, administrator or guardian may, at any time within two years after the death of the surviving parent, and in accordance with the laws of the State in which such children, for the time being, have their domicile, sell said land for the benefit of said infants, but for no other purpose; and the purchaser shall acquire the absolute title by the purchase, and be entitled to a patent from the United States, on payment of the office fees and sum of money herein specified.

SEC. 3. *And be it further enacted*, That the register of the land office shall note all such applications on the tract books and plats of his office, and keep a register of all such entries, and make return thereof to the General Land Office, together with the proof upon which they have been founded.

SEC. 4. *And be it further enacted*, That all land acquired under the provisions of this act shall in no event become liable to the satisfaction of any debt or debts contracted prior to the issuing of the patent therefor.

SEC. 5. *And be it further enacted*, That if, at any time after the filing of the affidavit, as required in the second section of this act, and before the expiration of the five years aforesaid, it shall be proven, after due notice to the settler, to the satisfaction of the register of the land office, that the person having filed such affidavit shall have actually changed his or her residence, or abandoned the said entry for more than six months at any time, then, and in that event, the land so entered shall revert to the Government.

SEC. 6. *And be it further enacted*, That no individual shall be permitted to make more than one entry under the provisions of this act; and that the Commissioner of the General Land Office is hereby required to prepare and issue such rules and regulations, consistent with this act, as shall be necessary and proper to carry its provisions into effect; and that the registers and receivers of the several land offices shall be entitled to receive the same compensation for any lands entered under the provisions of this act, that they are now entitled to receive, when the same quantity of land is entered with money, one-half to be paid by the person making the application, at the time of so doing, and the other half on the issue of the certificate, by the person to whom it may be issued. *Provided*, That nothing contained in this act shall be so construed as to impair or interfere, in any manner whatever, with existing pre-emption rights: *And provided further*, That all persons who may have filed their applications for a pre-emption right prior to the passage of this act, shall be entitled to all privileges of the act.

PARSON BROWNLOW ON THE SECESSIONISTS.—PARSON BROWNLOW, of the Knoxville *Whig*, is evidently not "in love" with the secessionists, as the following little clipping from his paper amply demonstrates:

"This machine of government, so delicate and complex in its structure, and which cost the great architects so much labor and thought, so much of the spirit of concession and compromise, and our fathers so much of blood and treasure, is to be broken to pieces, to gratify a set of corrupt, ambitious and disappointed demagogues, who find that they can never preside over these *United States*, and hence they seek to build up one or more contemptible *southern confederacies*, and to place themselves at the head of these. The fiddling and dancing of Nero, while Rome was enveloped in flames, was not more brutal, hellish, stupid and wicked, than is the conduct of these country-destroying, God-defying, and hell deserving TRAITORS to their country, who write and talk thus flippantly of the most momentous event that the human mind can conceive."

CHIEF JUSTICE TANEY.—"Occasional," the well-known correspondent of Col. FORNEY's *Press*, thus contradicts the current rumor that the Chief Justice of New York was about to resign his office:

"After visiting the Supreme Court room, I had an interview with a person high in authority, who informed me that Chief Justice Taney would die in the harness, and that persistent efforts had been made to induce him to withdraw, in order to allow Mr. Buchanan to fill the vacancy by the appointment of one of his favorites. He alleged that the Chief, although very feeble, was in as good health as he had been for many years past, and that, owing to his simple habits and quiet life, he might survive for several years to come."

"ANOTHER "DEMOCRATIC" JOB.—The New York *Express* of Tuesday publishes the following item:

"It is rumored in well-informed circles, at Washington, that there has recently been disposed of at private sale, 150,000 U. S. muskets, at the low price of $2.50 apiece, and that their destination is Europe, as telegraphed to the *Express* from Washington, on Friday last. These muskets, if advertised and sold at auction, as the law requires, would bring in ordinary times from $8 to $9 apiece. The people may well inquire why, at this critical period, they are thus secretly disposed of, in direct violation of law. They may also inquire for what reason Col. Craig, the head of the Ordnance Corps, on inspection duty, was ordered off just before the meeting of Congress."

TOBACCO FOR DISEASE OF THE THROAT.—The Boston *Medical* and *Surgical Journal* makes the following observation in a review of Sir Benjamin Brodie's letter in the London *Times* on the "Use and Abuse of Tobacco;"

"There is a local effect of tobacco, when smoked, which we have not seen mentioned, and which, in a therapeutical aspect, may be of considerable importance; we refer to its action in preventing that peculiar condition of the throat, which, if neglected, is liable to terminate in follicular inflammation, or what is properly known as clergyman's sore throat. It has been said that few if any instances of this affection can be found to exist in those in the habit of smoking, and we know of one or two instances where it yielded at once to the potent influence of tobacco. It probably acts by allaying commencing irritation, which, if allowed to increase, would end in inflammation, —and by counteracting any spasmodic condition of the surrounding muscles, a very natural source of trouble in this distressing disease."

MRS. HENRIETTA ROBINSON, the veiled murderess, now at Sing Sing, is thus alluded to by one of the editors of the Albany *Courier*, who has been visiting the state prison:

"Entering the female department, the accustomed eye at once detects the absence of anything like prison discipline. Convicts were running about hither and thither, talking and chatting together in high glee and merry voice. The notabilities in this department are 'Mrs. Robinson, the veiled murderess,' who by the way was the only prisoner that did not gaze at the visitors with an expression of mingled delight at seeing a strange face, or contemptuous brazenness because they were looked at; and Mrs. Littles, of Rochester, who murdered her husband. The former is instantly recognized by her great beauty and the possession of intensely red cheeks, which, to a city belle, would be of priceless value; and the latter by a roguish eye and "irrepressible smile."

COOL AS A CUCUMBER.—The Cincinnati *Commercial* says of RABBI WISE, who formerly had charge of one of the Synagogues in Albany:

"We have long known that the Rev. Dr. Wise, editor of the *Israelite*, was a philosopher, but were hardly prepared to see him take misfortunes so coolly as he does, in the following request to some burglars who have annoyed rather than robbed him on two late occasions:

'The thieves, who, last Friday night, broke into our office for the second time, are politely requested to do so no more, as we feel heartily ashamed for any decent thief to see how very poor we are. Tell us before hand your intention to pay us a visit, and we shall place some change somewhere within reach, to save the credit of the establishment.'"

General Washington's Punctuality.

On one occasion when Washington was sitting for his portrait in Peale's painting room, he looked at his watch and said:—"Mr. Peale my time for sitting has expired, but if three minutes more will be of any importance to you I will remain and make up the time by hastening my walk up to the State House (where Congress was in session.) I know exactly how long it will take to walk there, and it will not do for me as President, to be absent at the time of meeting." Mrs. Washington was remarkable for punctuality as her illustrious husband. At one time, during the General's absence, he wrote to her to get Mr. James to paint her portrait in miniature, and to send it to him. Mrs. Washington wrote a note to the artist, saying that her presence at home was indispensable when the General was away, and that it would not be convenient for her to attend at his painting room. She requested him, therefore, to come to her house for the sittings, and offered to accommodate herself to any hour when it would suit him to be away from his studio.

In reply, Mr. Peale appointed seven o'clock in the morning. When he left his home to keep the engagement for the first sitting, it occurred to him that the lady might not be quite ready to see him at so early an hour, He walked on more slowly than usual. Mrs. Washington met him with the observation, "Mr. Peale I have been in the kitchen to give my orders for the day, have read the newspaper, and heard my niece take her lesson on the harp, and yet I have waited on you twenty minutes." The gentleman, of course, felt exceedingly mortified, and remarked that if his engagement had been with General Washington he should have felt the importance of being punctual to the minute, but he thought it necessary to give a lady a little more time. "Sir," replied Mrs. Washington, "I am as punctual as the General." It may be imagined that Mr. Peale took care to be at the house the next day at the time appointed.

IRON AND WOOD SCREW PROPELLERS.—In an article in the last number of the London *Quarterly Review*, on ships and their construction for war purposes, the writer states that all screw propellors should be built of iron, for the following reasons. He says: "There is not a screw vessel of wood belonging to any port in England which has been built since the first experiments were tried; the fact being that is impossible to frame timber together with sufficient strength to resist the strength of a powerful screw acting with the enormous leverage due to its position in the vessel. So much is this the case, that our full-powered liners or frigates can only use their screws in exceptional cases. If driven at full speed the seams open, the calking escapes, and the whole vessel is so shaken as to become unfit for service in a very short time. No science, in fact, can frame wood firmly enough for the purpose, while it is very easy to make an iron hull sufficiently strong to resist the action of any screw driven by any engine that human hands can forge.

This is a question of vast importance to enterprising ship builders and ship-owners. Quite a number of large American wooden propellers have been built, but all have failed of entire success as merchant vessels, while foreign built iron screw steamers have become numerous in our ports. It the writer in the London *Quarterly* is correct, we have now a clue as to the cause of failure in our wooden built ocean screw steamers.—The course for us to pursue in view of this is to build iron vessels of this class. Three iron steamboats were constructed at New York during the past year; an iron screw steamer from Cromwell's, Wilmington, (N. C.) line is now being built at the Novelty Works, and at the same establishment another iron steamer, with a stern wheel, is also being constructed to run upon the Magdalena river, (S. A.) We are making some progress in iron ship-building; but there is still great room for a further extension of the business.—*Scientific Amer.*

WORSHIPPING THE PREACHER AND NOT HIS MASTER.—There is a story going the rounds that the Rev. A. S. Laurie once had occasion to exchange pulpits with the Rev. E. H. Chapin, of New York. Many members of Mr. Chapin's congregation have an idea that nobody else can preach a sermon as well as their pastor, and when they enter church and find a stranger occupying the place, they are apt to turn and go out. So it happened on this occasion that not a few persons departed, and others were on the point of doing so, when Mr. Laurie arose, hymn book in hand, and gravely remarked: "All those who came here to worship E. H. Chapin will have an opportunity to retire, and those who came to worship the Everlasting God will please unite in singing the following hymn."

DYE your hair a little while, and it will probably die itself.

The Capture of the Cora.

We have already published an account of the capture of the slave bark Cora by the U. S. Frigate Constellation. A letter from one of the officers of the frigate gives the following account of the chase and the prize:

U. S. FRIGATE CONSTELLATION, Sep. 27, '60.

As I read in your paper some time ago about the bark Cora, I will now give you the first news of her capture by our frigate last night. We had a smart chase, and the bark held out well, in spite of our shots, of which we did not spare. It was about seven bells yesterday evening (we were under our starboard tacks and bound for Loando,) when the lookout on the starboard cathead sang out "Sail ho!" on our weather bow, standing close hauled, with port tacks aboard.—We at once hauled our wind, and when we got on her lee quarter we tacked and stood after her, at the same time giving her a thirty-two pound pill; but she paid no attention to the compliment, started neither tacks nor sheets, but kept on her course.—After a half hour's chase it seemed doubtful whether we were gaining any, and preparations were made to wet sail, and bend a new mainsail; but the breeze rather freshened, and we could see plainly that we were gaining. We then gave her a couple more shots, but she kept on as though we were not worth minding. This put our captain rather out of temper, and orders were given to take better aim and fire into her. This was done effectually, as her rigging afterwards proved, which was cut away by our shots.

It was now evident to those on board the bark that we were coming up with her "hand over fist," for they now threw overboard all their spare things. Spars, water-casks, booby hatch and a lot of other stuff came across our bows, and we had to sheer about to keep clear of them. Still the bark kept on, and we close upon her. It was as beautiful a chase as I ever saw, and there were many of us who felt that she deserved to get clear for her gallant conduct. It was evident that those on board were not afraid of the smell of powder. They then lowered down their quarter boat and sent her adrift, thinking thereby to deceive us, and cause us to stop for the purpose of picking it up, but our jolly captain was not caught so easily, and order was given to let the boat pass and give the bark another shot That was the last shot we fired. We were now within musket shot; still the bark kept on It was evident to us all that she did not intend to heave to so long as her spars were standing, and orders were given to load with shell. We could plainly see the hands on board the bark, as we were now within a cable's length from it. Orders were given to fire the shell into her. The gun was trained, the match blown, and two seconds more and she would have had it into her hull. But her sails came to the mast at last, and of course the order was countermanded. We were so close that we had barely time to round to on our weather quarter and brace back.

We sent two boats on board of her, and she proved the Cora, of which we had a full description, and for which we had been cruising about for some length of time. As she lay under our lee she looked like a picture, and no other sailing craft could have taken her; but the Constellation can beat anything that is under sail. As soon as our boats reached the Cora our first Lieutenant, from her forecastle, hailed us that we had a "fat prize," and we gave three cheers. The Slaver's officers and crew were taken on board and confined, and the Cora was declared a prize to the Constellation. I believe that she had neither flag nor papers on board when taken. The chase lasted four hours and a half. She had seven hundred and five slaves on board, that were shipped at Mango Grando the night before, and had only been in the vessel twenty-four hours when taken.

The *Cora* appeared to be new, handsomely fitted out, and far superior to the class of vessels that are generally employed in the in the slave trade. Those vessels engaged in the Cuba trade are very poor, as a general thing, and are usually burned after landing a cargo. The hold was filled with men and boys, and her cabin with women. Two-thirds of the whole number were under fifteen years of age. All were in a perfectly nude state. They were classified as follows: 182 men, 105 women, 313 boys, 81 girls, and 3 babes at the breast. Commander Eastman represents them to have been fat and hearty, seemingly unconscious and careless of their situation, and all were gambolling at a great rate, while the sounds emitted were void of any well defined articulation. Thirty barrels of rice, ninety barrels of bread, and a large quantity of beans, with a light store of beef, were found.

At 1 o'clock the two ships got under way and until early daylight, the Constellation kept on at an easy rate, the Cora following her at respectful distance. The next day was occupied in getting the Cora ready to go to Monrovia, the place designated by Government for the delivery of captured Africans. The distance was some 1,460 miles. The next day, the 27th September, the vessels parted company, and the Cora proceeded to Monrovia, where she arrived on the 15th October, without any accident, except the loss by death of eleven of the negroes.

THE BEECH TREE.—The beech tree is said to be a non-conductor of lightning. So notorious is the fact, that the Indians, whenever the sky wears the appearance of a thunder storm, leave their pursuits and take refuge under the nearest beech tree. In Tennessee the people consider it complete protection. Dr. Beeton, in a letter to Dr. Mitchell, states that the beech tree is never known to be struck by atmospheric electricity, while other trees are often shattered into splinters. May not a knowledge of this afford protection to many when exposed?

Another Cure.

WAUMADEE, Minn., April 15, 1857.

MESSRS. B. PAGE, Jr. & Co.—GENTLEMEN:—During the past seven years I have suffered from all the ills incident to a weakness of the digestive organs. At times—being seized with an extreme loathing of food—I have not tasted nourishment for days; and again, when an appetite partially returned, the stomach was unable to retain what was eaten. At the suggestion of a friend, who had received much benefit, in a similar case from your Holland Bitters, I procured a bottle, and before I had taken half of it, experienced much relief; and now, after having continued its use for a short time, enjoy excellent health.

Yours, &c., J. MASTER.

SPECIAL NOTICE.

THERE IS A RARE OPPORTUNITY for a good BLACKSMITH and a good SHOEMAKER to establish themselves in a lucrative business, in the town of Hersey ville, in Monroe County, Wisconsin. It is located on the line of the LaCrosse & Milwaukee Railroad, in the heart of the famous La Crosse Valley, one of the pleasantest and healthiest parts of the state. Being a new place, the owner of the lands in the vicinity of the depot proposes to furnish building lots for shops and dwellings, to a limited number, FREE, so as to enable some industrious, but poor mechanics, an excellent chance to better their immediate prospects. The place is thriving, and has, at present, some two or three hundred farmers within five miles; and two good water-powers within half a mile of the depot; also a post-office and store. Large quantities of wheat are shipped daily from this station.

Any communications as to the undersigned will be promptly attended to. C. M. HERSEY, aug24d&w3m Herseyville, Monroe Co., Wis

CITY LAND OFFICE, YOUNG'S BLOCK.
WANTED TO PURCHASE

FROM TWO TO THREE ACRES OF Land out the Spring Street Road, or on the Mukwonago Plank Road, or on the old Chicago Road. Will give a fair price for it; will pay half cash and half lands, or will exchange some City property.

Also, want to purchase from 20 to 50 acres of land. Some improvements, with a good log house and stable, not over thirty miles from the city. Prefer it in a Yankee or Irish settlement. Not to cost over six or seven hundred dollars.

J. H. FREEMAN,
PRACTICAL FURRIER
No. 24 Wisconsin Street,

HAS TAKEN THE STORE FORMERLY occupied by Mrs. Dunn, where he will carry on the

Cleansing, Altering, or Renewing of Furs of all Descriptions.

The subscriber is a Practical Furrier, and flatters himself that his stock is such as to compare favorably with any in the western country.

After spending many years of study, he has discovered a certain method of re-dressing old Furs to make them in every respect equal to new, no matter how greasy or discolored the Furs may be.

All ladies wishing to have Furs altered, enlarged, cleaned, matched, or re-dressed, are respectfully invited to call early, and he will prove to their satisfaction that his work is better than ever before exhibited in this city. oct31l29d2mo

THE NEW AMERICAN WATCH!

Made at Waltham, Mass.

IN ORDER TO MEET THE REQUIREMENTS of gentlemen who prefer a thinner Watch than those usually made by us, we have lately issued a new style of Watch on the three-quarter plate model, (especially designed for this purpose.

In establishing this new series, it has also been our design to produce a Watch in every way superior to the best and highest priced products of the most reputable of English and Swiss manufacturers; and no labor or expense has been spared to this end.

In all respects of fine and durable material, of external and internal finish, of accurate compensation and adjustment, of mathematically just proportions, and of *practical results*, our new three-quarter plate Watch challenges comparison with any in the world.

The following named gentlemen may be referred to in relation to these Watches:

Hon. Hannibal Hamlin, Me., John G. Saxe, Vermont, N. P. Willis, New York, Hon. N. P. Banks, Mass, Horace Greeley, Frank Leslie, Cyrus W. Field, New York, Wm. H. Cary, N. York, Paul Morphy, New Orleans, Norman Wiard, Wis. Dr. J. Marion Sims, Prof. Bartlett, West Pt. Lieut. H. A. Wise, U.S.N., Col. W. J. Hardee, U.S.A. S. I. Prime, D.D., Wh't P's, Wilson G. Hunt, N. York, Gen. G. P. Morris, N. York, Peter Cooper, N. York.

CAUTION.—As our Watch is now extensively counterfeited by foreign manufacturers, we have to inform the public that no watch is of our production which is unaccompanied by a certificate of genuineness, bearing the number of the watch, and signed by our Treasurer, R. E. Robbins, or by our predecessors, Appleton, Tracy & Co.

As these watches are for sale by jewelers generally throughout the Union, the American Watch Company do not solicit orders for single watches.

COUGHS.—THE SUDDEN CHANGES of our climate are sources of PULMONARY, BRONCHIAL, and ASTHMATIC AFFECTIONS. Experience having proved that simple remedies often act speedily and certainly when taken in the early stages of the disease, recourse should at once be had to "BROWN'S BRONCHIAL TROCHES," or Lozenges, let the Cold, Cough, or Irritation of the Throat be ever so slight, as by this precaution a more serious attack may be effectually warded off. PUBLIC SPEAKERS and SINGERS will find them effectual for clearing and strengthening the voice.

LINES.

ON THE DEATH OF MRS. HENRY WARREN SMITH.

O! mourn ye, around the bier,
That shrouds from sight the loved and dear:
O, mourn ye, for a dwelling lone
Echoes no more her gladsome tone.
O, mourn as Autumn leaves are falling,
This sweet flower's early withering;
Mourn that on earth the fairest things,
Ever the soonest find them wings.

O, can it be? like some wild dream,
These mourners, and this dark pall, seem.
We've watched no trace of slow decay,
We've seen no rose-tint fade away;
But we have seen a radiant form,
By grief unshadow'd, bright and warm;
A being in her beauty's bloom—
What doth she in this scene of gloom?

Fresh in our memories are now,
The sunny glance, the fair high brow;
In every passing change revealing,
The light of pure and noble feeling;
The woman's wisdom firm and mild,
Blent with the gladness of a child;
The brightness of a soul, where pain
Hath never left its earthly stain.

We've seen her 'mid the young and fair,
The brightest and the happiest there:
We've seen her in her maiden pride;
We've seen her as a happy bride!
We see her not now—O, no! O, no!
Afar from weariness and woe,
In the bright Paradise above,
Is she we mourn, is she we love.

O! press ye round the senseless clay,
Once lighted by the spirit's ray,
Ye would not wish it to resume
This world of sorrowing and gloom.
But mourn ye, mourn around her bier,
And for yourselves, for them the tear.
O, weep for that sad train who come
To mourn the idol of their home.

And mourn for him o'er whose young years,
Has fall'n the blight and grief and tears;
Who, to a sad and silent home,
With aching, bursting heart must come,
Feeling each tie to earth is riven.
Save the fair boy her love hath given—
For him, who now must tread alone,
The path that erst so brightly shone.

MONROE, MICH., Nov 10th, 1860. H.

THE BATTLE OF FORT MOULTRIE.

The month of May robed the catalpa and the oleander in their gorgeous masses of flowers, and the peace of Charleston was still undisturbed, except by gathering rumors, that the English fleet and transport destined for its attack had arrived in Cape Fear River. All the mechanics and laborers about town were engaged in strengthening and extending its fortifications, and a great number of negroes brought down from the country were put upon the works. The bloom of the magnolia was turning yellow in the hot sky of early summer, when on the first day of June expresses from Christ Church Parish brought news to the President, that a fleet of forty or fifty sail lay anchored about twenty miles to the north of Charleston bar.

Happily the colony had already organized an efficient government and invested Rutledge, its chief executive officer, with large powers. He ordered the alarm to be fired, and while the citizens were looking out for horses, carriages, or boats to remove their wives and children, he hastened down the militia from the country by expresses, and in company with Armstrong visited all the fortifications. Barricades were thrown up across the principal streets; defences were raised at the points most likely to be selected for landing; lead, gleaned from the weights of windows of churches and dwelling houses, was cast into musket-balls, and a respectable force in men was concentrated at the capital.

The eyes of the whole country were turned upon the people of South Carolina. Their invaders at a moment when instant action was essential to their success, were perplexed by uncertainty of counsel between Clinton and Sir Peter Parker, the respective commanders of the army and the naval force. On the seventh, Clinton would have sent on shore a proclamation by a flag of truce, his boat was fired upon by an ignorant sentinel; but the next day Moultrie offered an explanation through one of his officers, and received the proclamation in return. In this the British general declared the existence of "a most unprovoked and wicked rebellion within South Carolina, the succession of crimes of its inhabitants," the tyranny of its congress and committees, the error, thus far incorrigible, of an "infatuated and misguided multitude," the duty of proceeding forthwith against all bodies of men in arms, congresses and committees, as open enemies of the State; but "from humanity" he consented "to forewarn the deluded people," and to offer in his majesty's name "free pardon to all who should lay down their arms and submit to the laws." Having done this, he consulted Cornwallis on the best means of gaining possession of Sullivan's Island; and both agreed that they could not more effectually cooperate with the intended movement of the fleet, than by taking possession of Long Island, which was represented to communicate with Sullivan's Island at low water, by a ford, and with the main by a channel navigable for boats of draft. Clinton had four days time to sound the ford; but he took the story of its depth on trust.

On the morning of the 9th of June, Charles Lee, attended by his aids-de-camp and Robert Howe of North Carolina, arrived at Haddrell's Point. After examining its fortifications, he crossed over to Sullivan's Island, where he found a good stock of powder, a fort of which the front and one side was finished, and twelve hundred men encamped in its rear in huts and booths that were roofed with palmetto leaves. Within the fort numerous mechanics and laborers were lifting and fitting heavy palmetto logs for its walls. He had scarce glanced at the work, when he declared that "he did not like that post at all; it could not hold out half an hour, and there was no way to retreat;" it was but a slaughter pen, and the garrison would be sacrificed. On his way up to Charleston, Lee touched at James Island, where Gadsden had the command.

The battalions raised in South Carolina were not as yet placed upon the Continental establishment; and although Congress bore the proportionate expense, the disposition of the force still remained under the exclusive direction of the President of the Colony and its officers. This circumstance became now of the greatest importance. To Armstrong no command whatever had been conceded; and he had little to do except to receive the hospitalities of Charleston, but Lee was the second officer in the American army; his military fame was, at that time, very great; he had power from the general Congress to order, and he had ordered battalions from North Carolina and Virginia; his presence was a constant pledge of the active sympathy of the Continent; and on his arrival, he was invested with the military command through an order from Rutledge.

On that same day Clinton began his disembarkation, landing four or five hundred men on Long Island. It was therefore evident that the first attack was to be made not on that city, but its outpost; yet Lee proposed to Rutledge to withdraw from Sullivan's Island and abandon it without a blow Had he acted in concert with the invaders, he could not have more completely promoted their design. But Rutledge, interposing his authority, would not suffer it, and Lee did not venture to proceed alone, yet on the 10th, his very first order to Moultrie, except one that was revoked as soon as issued, was for that officer to construct bridges for his retreat, and the order was repeated and enforced, several times that day, and almost every succeeding one. Happily, Moultrie's courage was of that placid kind that could not be made anxious or uneasy; he weighed carefully his danger and his resources; with quiet, imperturbable confidence, formed his plan for repelling the impending double attack of the enemy by sea and land; and never so much as imagined that he could be driven from his post.

On the tenth of June, while the continental Congress was finishing the debate on independence, the Bristol, whose guns had been previously taken out, came over the bar attended by thirty or forty vessels, and anchored at about three miles from Fort Sullivan. In Charleston, from which this movement was distinctly visible, all was action; on the wharfs warehouses of great value were were thrown down to give room for the fire of cannon and musketry from the lines along the Bay; intrenchments surrounded the town; barricades, raised in the principal streets, were continued to the water; and arrow-headed embankments were projected upon the landing places. Negroes from the country took part in the labor; the hoe and the spade were also in every citizen's hands, for all persons, without distinction, "labored with alacrity;" some for the sake of example, some as the best way of being useful.—Neither the noon-day sun nor the rain, which in that clime drops from the clouds in gushes, interrupted their toil.

On the eleventh the two regiments from North Carolina arrived. That same day Lee, being told that a bridge of retreat from Sullivan's Island to Haddrell's Point was impossible, and not being permitted by Rutledge to direct the total evacuation of the island, ordered Moultrie immediately to send four hundred of his men over to the continent; in his postscript he added: "Make up the detachment to five hundred." On the thirteenth he writes, "You will detach another hundred of men," to strengthen the corps on the other side of the creek. But the spirit of South Carolina had sympathy with Moultrie, and mechanics and negro laborers were sent down to complete his fort; but hard as they toiled it was not nearly finished before the action. On the twelfth the wind blew so violently that two ships which lay outside the bar, were obliged for safety to stand out to sea, and this assisted to delay the attack.

On the 15th, Lee stationed Armstrong at Haddrell's Point; and Armstrong as the superior officer, ever manifested for Moultrie hearty friendship. On that same day, Sir Peter Parker gave to the captains of his squadron his arrangement for the attack of the batteries on Sullivan's Island, and on the 16th he communicated it to Clinton, who did not know what to do. The dilatory conduct of the British betrayed uncertainty and a division of councils; and the Carolinians made such use of the consequent delay, that by the 17th they were in an exceedingly good state of preparation at every out-post and also in town. But Clinton intended only to occupy and garrison Sullivan's Island. For this end, consulting with Cornwallis, he completed the landing of all his men on Long Island, a naked sand bank, where nothing grew except a few bushes, that harbored miriads of mosquitoes, and where the the troops suffered intensely from the burning sun, the want of good water, and the bad quality and insufficient supply of provisions.

A trial of the ford was made; Clinton himself waded in up his neck; so did others of his officers, and on the day on which he succeeded in getting all his men on shore, he announced, through Vaughan, to Sir Peter Parker, that no ford was to be found; that there remained a depth of seven feet of water at low tide; and that therefore the troops could not take the shore they expected in the intended attack. His six full regiments, and companies enough from others to make up one more, a body of more than three thousand men, thoroughly provided with arms, artillery and ammunition, had left the transports for a naked sand-bank, that was to them a prison. Yet, compelled to propose something, Clinton fixed on the twenty-third for the joint attack.

On the night after the day appointed for the attack. Muhlenberg's regiment arrived. On receiving Lee's orders it instantly set off from Virginia and marched to Charleston, without tents, continually exposed to the weather. It was composed chiefly of Muhlenberg's old German parishioners, and of the Virginia regiments, and was the most complete, the best armed, best clothed, and best equipped for immediate service. The Americans were now very strong.

THE GREATEST

MEDICAL DISCOVERY

OF THE AGE.

MR. KENNEDY, OF ROXBURY, HAS discovered in one of our common pasture weeds a remedy that cures

EVERY KIND OF HUMOR.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two or three bottles will clear the system of biles.

Two bottles are warranted to cure the worst canker in the stomach.

Three or five bottles are warranted to cure the worst kind of Erysipelas.

One or two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two or three bottles are warranted to cure the worst kind of ringworm.

Two or three bottles are warranted to cure the most desperate cases of rheumatism.

Three or four bottles are warranted to cure salt-rheum.

Five or eight bottles will cure the worst cases of scrofula.

One or three bottles are warranted to cure the worst cases of dyspepsia. I know from the experience of thousands that it has been caused by a canker in the stomach.

One or two bottles are warranted to cure sick headache.

One or two bottles are warranted to regulate a costive state of the bowels.

One or two bottles will regulate all derangement of the kidneys.

Four to six bottles has cured the worst cases of dropsy.

By strictly following the directions in the pamphlet around each bottle, and a judicious application of the

SALT RHEUM OINTMENT,

SCROFULA OINTMENT and

HEALING OINTMENT,

every sore and ulcer, of whatever kind or nature, except cancer, that has taken root, is perfectly and permanently cured.

ROXBURY, Mass.

DEAR MADAM:—The reputation of the Medical Discovery, in curing all kinds of humors, is so well established, by the unanimous voice of all who have ever used it, that I need not say anything on the subject, as the most skillful physicians and the most careful druggists in the country are unanimous in its praise.

In presenting the Medical Discovery to your notice, I do it with a full knowledge of its curative powers, in relieving all, and curing most of the diseases to which you are unfortunately soliable. That most excruciating disease to an affectionate mother

Nursing Sore Mouth

is cured as if by a miracle; your own temper is restored to its natural sweetness, and your babe from short and fretful naps to calm and sweet slumbers; and the Medical Discovery becomes a fountain of blessings to your husband and household.

In the more advanced stages of

Canker

it extends to the stomach, ensuing

Dyspepsia

which is nothing but canker on the stomach; then on the intestines and

Kidneys

creating a sinking, gone feeling, and an indifference even to the cares of your family.

Your stomach is

Raw and Inflamed,

your food distresses you, and you can only take certain kinds, and even of that your system does not get half the nourishment it contains, as the acrimonious fluid of the canker eats it up; then your complexion loses its bloom and becomes sallow or greenish, and your best day is gone. For want of nourishment your system becomes loose and flabby, and the fibres of your body become relaxed. Then follows a train of diseases which the Medical Discovery is peculiarly adapted to

Cure:

Palpitation of the heart, pain in the side, weakness of the spine and small of the back, pain of the hip joint when you retire, irregularity of the bowels, and also that most excruciating of diseases the

Piles.

How many thousands of poor women are suffering from this disease and pining away a miserable life, and their next door neighbor does not know the cause. I wish to impress on your mind that good old proverb, "an ounce of prevention is better than a pound of cure." In the

MEDICAL DISCOVERY

you have both the preventative and the cure, with this great and good quality, that it will never, under any circumstances, do you an injury. Yours truly, DONALD KENNEDY.

For sale by all Druggists in Milwaukee, and by Druggists generally throughout the Western States. Price $1.00 per bottle. sep1l38dawly

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

Coughs, Colds, Hoarseness, Influenza, Bronchitis, Whooping Cough, Croup, Asthma, Incipient Consumption,

AND FOR THE RELIEF OF CONSUMPTIVE patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town and almost every hamlet of the United States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the families in any civilized country on this continent without some personal experience of its effects; and fewer yet the communities anywhere which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant grounds to believe the CHERRY PECTORAL saves more lives by the consumptions it prevents than those it cures. Keep it by you, and cure your colds while they are curable, nor neglect them until no human skill can master the inexorable canker that, fastened on the vitals, eats your life away. All know the dreadful fatality of lung disorders, and as they know too the virtues of this remedy, we need not do more than to assure them it is still made the best it can be. We spare no cost, no care, no toil, to produce it the most perfect possible, and thus afford to those who rely on it the best agent which our skill can furnish for their cure.

Ayer's Cathartic Pills

FOR ALL THE PURPOSES OF A FAMILY PHYSIC

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice,* and other kindred complaints, arising from a low state of the body or obstruction of its functions.

MOFFAT'S

Life Pills and Phœnix Bitters!

THESE MEDICINES HAVE NOW been before the public for a period of THIRTY YEARS, and during that time have maintained a high character in almost every part of the Globe, for their extraordinary and immediate power of restoring perfect health to persons suffering under nearly every kind of disease to which the human frame is liable.

The following are among the distressing variety of human diseases in which the

VEGETABLE LIFE MEDICINES

Are well known to be infallible.

DYSPEPSIA, by thoroughly cleansing the first and second stomachs, and creating a flow of pure, healthy bile, instead of the stale and acrid kind; FLATULENCY, Loss of Appetite, Heartburn, Headache, Restlessness, Ill-Temper, Anxiety, Languor, and Melancholy, which are the general symptoms of Dyspepsia, will vanish, as a natural consequence of its cure.

COSTIVENESS, by cleansing the whole length of the intestines with a solvent process, and without violence; all violent purges leave the bowels costive within two days.

FEVERS of all kinds, by restoring the blood to a regular circulation, through the process of respiration in such cases, and the thorough solution of all intestinal obstruction in others.

The Life Medicines have been known to cure RHEUMATISM permanently in three weeks, and GOUT in half that time, by removing local inflammation from the muscles and ligaments of the joints.

DROPSIES of all kinds, by freeing and strengthening the kidneys and bladder: they operate most delightfully on these important organs, and hence have ever been found a certain remedy for the worst cases of GRAVEL.

Also WORMS, by dislodging from the turnings of the bowels the slimy matter to which these creatures adhere.

SCURVY, ULCERS and INVETERATE SORES, by the perfect purity which these LIFE MEDICINES give to the blood, and all the humors.

SCORBUTIC ERUPTIONS and BAD COMPLEXIONS by their alterative effect upon the fluids that feed the skin, and the morbid state which occasions all eruptive complaints, sallow, cloudy, and other disagreeable complexions.

The use of these Pills for a very short time will effect an entire cure of SALT RHEUM, and a striking improvement in the clearness of the skin. COMMON COLDS and INFLUENZA will always be cured by one dose, or by two in the worst cases.

PILES.—The original proprietor of these Medicines, was cured of Piles, of 35 years standing by the use of the LIFE MEDICINES alone.

FEVER AND AGUE.—For this scourge of the western country, these Medicines will be found a safe, speedy, and certain remedy. Other medicines leave the system subject to a return of the disease—a cure by these Medicines is permanent—TRY THEM, BE SATISFIED AND BE CURED.

BILIOUS FEVERS AND LIVER COMPLAINTS.—General Debility, Loss of Appetite, and Diseases of Females—the Medicines have been used with the most beneficial results in cases of this description: King's Evil and Scrofula, in its worst forms, yields to the mild yet powerful action of these remarkable medicines. Night Sweats, Nervous Debility, Nervous Complaints of all kinds, Palpitation of the Heart, Painter's Colic, are speedily cured.

MERCURIAL DISEASES.—Persons whose constitutions have become impaired by the injudicious use of Mercury, will find these Medicines a perfect cure, as they never fail to eradicate from the system all the effects of Mercury, infinitely sooner than the most powerful preparations of Sarsaparilla.

PURE VEGETABLE EXTRACTS, AND PUT UP IN GLASS CASES, AIR TIGHT, AND WILL KEEP IN ANY CLIMATE.

THE FAMILY CATHARTIC PILL is a gentle but active Cathartic which the proprietor has used in his practice more than twenty years.

The constantly increasing demand from those who have long used the PILLS and the satisfaction which all express in regard to their use, has induced me to place them within the reach of all.

The Profession know well that different Cathartics act on different portions of the bowels.

The FAMILY CATHARTIC PILL has, with due reference to this well established fact, been compounded from a variety of the purest Vegetable Extracts, which act alike on every part of the alimentary canal, and are GOOD and SAFE in all cases where a Cathartic is needed, such as DERANGEMENTS OF THE STOMACH, SLEEPINESS, PAINS IN THE BACK and LOINS, COSTIVENESS, PAIN AND SORENESS OVER THE WHOLE BODY, from sudden cold, which frequently, if neglected, end in a long course of Fever, LOSS OF APPETITE, a CREEPING SENSATION OF COLD OVER THE BODY, RESTLESSNESS, HEADACHE, or WEIGHT IN THE HEAD, all INFLAMMATORY DISEASES, WORMS IN CHILDREN OR ADULTS, RHEUMATISM, a great PURIFIER OF THE BLOOD and many diseases to which flesh is heir, too numerous to mention in this advertisement. DOSE, 1 to 3.

PRICE THREE DIMES.

DR. S. O. RICHARDSON'S

Sherry Wine Bitters!

The Celebrated New England Remedy

FOR HABITUAL CONSTIPATION,

JAUNDICE, FEVER AND AGUE, GENERAL DEBILITY, AND ALL DISEASES ARISING FROM A DISORDERED STOMACH, LIVER, OR BOWELS.

IT IS A MEDICINAL TONIC THAT most persons require during the summer season. Try its virtues all you who are debilitated and require medicinal aid.

The following is from the best authority. Mr. Stanford is a merchant, well known, and now, to see him, you would behold a man the picture of health.

BLOUNTSVILLE, Henry Co., Ind., May 4, 1860.
MESSRS. J. N. HARRIS & CO., Cincinnati, O.

Gents—Your Agent visited me to-day, and proposed leaving me a supply of your Richardson's Sherry Wine Bitters on sale. I hailed them as an old and valued friend, for such they proved to me. After reading a statement of my case, and experience with the bitters, you will not think me enthusiastic when I say that I attribute my present good health, *even life itself*, to the merits of your truly invaluable medicine. Some three years since I was attacked with great nervous debility, which was soon followed by palpitation of the heart, of the most severe and prostrating character. At the expiration of six months I was reduced to a mere skeleton, and was satisfied if relief did not soon come I must pass away. Two physicians attended me a good portion of the time, but their efforts to afford relief were of no avail. Finally one of them suggested a trial of the "Sherry Wine Bitters," and to my great satisfaction, their effects upon me were most beneficial from the start. After using about a dozen bottles I was completely restored, and am now in robust health. You may expect good sales of me, as I can recommend them on their merits.

You are at liberty to make use of this statement as may best suit you, as I give it freely, and with a hope that others may be induced to try it who are suffering as I was. With all respect, I remain,

Yours truly,
THOMAS STANFORD.

PERRY DAVIS'

VEGETABLE

PAIN KILLER.

WE ASK THE ATTENTION OF THE trade to this long tested and unrivaled

FAMILY MEDICINE.

It has been favorably known for more than twenty years, to be the

ONLY SURE SPECIFIC

For many diseases incident to the human family.

Internally and Externally

It works equally sure.

What *stronger proof* of these facts can be produced than the following letter received *unsolicited* from A. W. Curtis:

ROMEO, Macomb Co., Mich., July 9, 1860.
MESSRS. J. N. HARRIS & CO.

Gentlemen:—The confidence I have in Perry Davis' Pain Killer as a remedy for Colds, Coughs, Burns, Sprains and Rheumatism, for the cure of which I have successfully used it, induces me to cheerfully recommend its virtues to others.

A few months ago I had recourse to it to destroy a felon; although I had never heard of its being used for that purpose, but having suffered intensely from a former one, and having no other remedy at hand, I applied the Pain Killer freely for about fifteen minutes in the evening, and repeated the application very briefly the next morning, which entirely destroyed the felon, and increased my confidence in the utility of the remedy. Yours truly,

A. W. CURTIS,
Minister of the Wesleyan Methodist Church.

THE PAIN KILLER

Has been tested in every variety of climate, and by almost every nation known to Americans. It is the almost constant companion and inestimable friend of the missionary and the traveler—on sea and land—and no one should travel on our lakes or rivers without it.

Be sure you call for and get the genuine Pain Killer, as many worthless nostrums are attempted to be sold on the great reputation of this valuable medicine.

Directions accompany each bottle.

Sold by dealers everywhere.

Price, 25 cts., 50 cts., and $1 per bottle.

PURIFY THE BLOOD.

DR. WEAVER'S

Canker and Salt Rheum Syrup!

FOR THE CURE OF

Canker, Salt Rheum, Erysipelas, Scrofulous Diseases, Cutaneous Eruptions, and every kind of Disease arising from an impure state of the Blood.

The most Effective Blood Purifier of the Nineteenth Century.

THE OBJECT OF THIS SYRUP IS TO throw all impurities which are in the blood, out upon the surface of the skin, which is the only true way that the blood can ever be freed from them. When they are out upon the skin they can at once be removed by applying the Cerate, which will in all cases effect a permanent cure. There is no external application which will alone permanently cure this class of disease.

DR. WEAVER'S

CERATE, OR OINTMENT,

Accompanied with the Syrup, will cure Salt Rheum, Erysipelas; Old Sores, Tetter and Ringworm, Scald Head, &c.

The Cerate has proved itself to be the best Ointments ever invented, and where once used, it has never been known to fail of effecting a permanent cure of Sore Nipples, Chapped and Cracked Hands, Eruptions of the Skin, Chilblains and Frost Bites, Barber's Itch, &c.

Every family should have it.

Sold by Medicine Dealers generally.

Price of Syrup $1 per bottle. Cerate 25 cents per bottle. J. N. HARRIS & CO., Proprietors, Cincinnati, O.

TELEGRAPH!

REPORTED BY THE N. Y. ASSOCIATED PRESS FOR THE DAILY SENTINEL.

Washington Matters.

WASHINGTON, Dec. 14—3 P. M.

The Secretary of the Treasury is authorized, with the approval of the President, to issue the notes at such rates of interest as may be offered by the lowest responsible bidder, who may offer to take the same at the lowest rate of interest; but in deciding upon these bids no fraction shall be considered which may be less than a quarter per cent. per year. The notes to be transferable by assignment, to whose order the same is made payable, and received by all proper officials in the payment of all duties, taxes, public lands, and all debts of any character due at the time such notes be offered in payment.

The Secretary is further authorized to purchase the notes at par for the amount of principal and interest due at the time of the purchase, and so much of any unappropriated money in the treasury as may be necessary for the purposes appropriated to the principal and interest.

The power to re issue notes shall cease on the 1st of January, 1863. The usual provisions are made for punishing forgery and counterfeiting. All money hereafter contracted for under the authority of the Treasury and loan account of June last, shall be used in the redemption of the Treasury notes outstanding, and those to be issued under this account, and to replace in the Treasury any amount of said notes which shall have been paid and received for public dues, and for no other purpose.

A letter from a distinguished source was just received from Alabama, and says it is now certain that the co-operationists and conservatives will carry every county in northern Alabama, in the election of delegates to the convention, and ten or more in middle or southern Alabama, thus rendering doubtful the question as to which side will triumph in the convention.

Col. Taylor, a leading Bell man of that State, has published a letter strongly favoring co-operation. If, however, the ordinance of secession be passed, the conservatives will insist that it be submitted to the people for ratification.

Private accounts from Georgia state that the conservatives, under the lead of Stephens, Johnson, Jenkins and others, are in strong hopes of carrying a majority of the members of the State convention, and that the conciliatory tone of the Republicans will do much to strengthen Southern conservatives.

A circular has been prepared by Southern extremists, addressed to their constituents, and is privately presented to Congressmen of that class for signatures, notwithstanding the denial to the contrary.

The *President* received, a week ago, the most expressive assurances that South Carolina would not resist the Federal authorities during his administration.

Matters at the South.

CHARLESTON, Dec. 13.

The Charleston *Courier* believes a compromise impossible.

COLUMBIA, S. C., Dec. 13.

The Senate has adopted a report appropriating half a million of dollars for the exigencies which secession may create.

GEORGIA, Dec. 14—3 P. M.

Large secession meetings were held last night at Savannah, Columbus and Atlanta. So far the meetings have been more conservative than secessionism. All, however, are in favor of resistance in some form.

The Montgomery *Advertiser*, yesterday, published a presentment of the Grand Jury Federal District Court, declaring the Federal Government worthless and impartial; a nuisance for permitting violation of the constitution in a State; nullifying the Fugitive Slave Law, and other causes.

Later from California.

FT. KEARNEY, Dec. 13—9 P. M.

The Pony Express with San Francisco dates to the 1st inst., passed here at 1 o'clk this morning. The Southern secession movement continues the all absorbing topic with the people.

Some of the Breckinridge papers are publishing articles favoring a Pacific Republic which attracts but little attention.

The Lyceum Theatre building in San Francisco was partially destroyed by fire on the 28th ult. Loss $20,000.

From Boston.

BOSTON, Dec. 13—3 P. M.

The line of steamers between Boston and Charleston, will discontinue their trips for the present.

Paul Hockett, who was tried for the murder of Henry Gillon, in Lowell, was to-day found guilty of manslaughter.

LATEST NEWS!

BY LAST NIGHT'S REPORT

Washington Matters.

WASHINGTON, Dec. 14—9 P. M.

This being the anniversary of Washington's death, delegations of Free Masons from different States met here to-day, to honor his memory and pledge their influence in the promotion of harmony and fraternal feeling. The object is praiseworthy as all patriots must feel.

Secretary Cass' resignation has made a profound impression here.

The committee of thirty-three, and the majority in Congress, will stand by Mr. Rust's resolution as a basis of compromise. The extreme Republicans and Secessionists oppose it.

There is a rumor that Senator Douglas will, in the Senate declare it to be the duty of the President to resist secession by force of arms.

There is good reason to believe that Gen. Cass intends resigning his position as Secretary of State. Indeed, it is reported that the President has been so informed, but that he will endeavor to dissuade him from this course. There is no doubt that the Assistant Secretary of State, Mr. Prescott, has resigned.

From Pike's Peak.

FT. KEARNEY, Dec. 14—9 P. M.

The eastern stage coach from Denver, 10th passed here for Omaha this morning, with mails and six passengers.

DENVER, Dec. 10.—This morning was clear and bright. There is no frost in the ground and the farmers are plowing for spring crops.

Charley Harrison's trial closed Friday night. The jury remained out till Saturday at one o'clock, and not agreeing were discharged and the prisoner set at liberty.

Waters, the murderer of Freeman, is not yet arrested, but officers are after him.

The first church bell in Pike's Peak arrived here on the 7th.

Hinkley & Co.'s messenger by the U. S. coach takes down $8,500 in dust.

A copy of the President's Message which Hinckly & Co.'s express arranged with the western stage to bring through by special messenger left Fort Kearney at 8 P. M. on the 6th, arrived here at 9 A. M. on the 9th, and was published by the *Mountaineer* that day.

FT. KEARNEY, Dec. 14—9 P. M.

Two coaches of the C., O. C. & P. P. Express passed here for St. Joe this P. M., leaving the following:

DENVER CITY, 11th.—Charles Nitz, a former citizen of Leavenworth, died here Sunday and was buried here yesterday with masonic honors.

None of the parties from here for San Juan had reached those mines; at the last accounts they were stopping along East river, at the foot of the mountains and kept back by deep snow. Encouraging reports still continue to reach them. The weather in Gregory's mines is very fine, and work is going rapidly ahead.

The C. O. C. & P. P. coaches take down twelve passengers and $2,000 in dust, this morning.

Destructive Fire.

NEWARK, N. J., Dec 14—9 P. M.

About midnight last night, a fire broke out in the basement of the building on the corner of Main and Centre street, Orange, N. J., used as a rum-selling establishment. The upper part was occupied by tenants — This building was consumed and a number of others, principally stores. The fire burnt west to the brick store of J. L. Lightship, and east to the new Methodist Church, which latter was partially burned and considerably injured. Waverly Hall, occupied by A. H. Freeman as a store; Smith & Lecknor, grocers; the P. O., a drug store, jewelry, and other establishments, were burned to the ground. Loss $39,000.

Fire at Memphis—Collision and Loss of Life.

MEMPHIS, Dec. 14—9 P. M.

The steamer Goody Friends, bound up, and the South Bend, bound down, collided about fifty miles above here. The latter sunk, and it is reported that several lives were lost.

The Overton block, on the corner of Main and Monroe streets, was burned last night. Loss, $175,000; insured for $59,000.

The Extradition Case.

TORONTO, Dec. 14.—9 P. M.

The decision in the Extradition Case of the fugitive slave Jones, alias Anderson, is expected to be given by the court to-morrow; the authorities are making active preparations for the event of an anticipated attempt of rescue. The police are to be armed and the troops held in readiness.

Later by the North Star.

NEW YORK, Dec. 14—9 P. M.

The dates from Callao are to Nov. 14th.

Mr. Clay would leave in a few days in the Wyoming, homeward bound.

The revised constitution of Peru has been accepted, sworn to and published.

Congress has in secret session conferred extraordinary powers upon President Castillo, with reference to the present difficulties with Bolivia. It is therefore thought by many that Castillo will not content himself by simply overthrowing DeLinars, but will probably try to annex Bolivia to Peru.

A letter from Lima says that Castilla is to raise an army of 30,000 men to operate against Bolivia. The letter adds: It is the general opinion of the people, who know both the Bolivian and Peruvian armies, that the former will gain the victory in the coming struggle, at least if old Gen. Brown commands the Bolivians, as it is said, and Castilla the Peruvians, the latter are sure of a sound thrashing.

CITY LAND OFFICE.

LOOK AHEAD. BE PREPARED FOR the flood of emigration which will pour in upon us. Look at the South, all is here. Thousands of thousands will leave and go where they can have free air and free speech, and lands which they can call their own. Now is the time to invest your surplus money in farming lands. Thousands upon thousands of farmers, and others, who have been struggling for years to make money, are now able to invest. The abundant crops have done a wonderful work, and Providence is smiling upon this great State of ours. Our growth and development in wealth and property will be great beyond precedent. What is to be done with all the money, with the accumulating millions now flowing into the pockets of the people? Invest your money in good farming land; nothing is more safe; the land in Wisconsin will all be wanted. The great noisy South will cause thousands of thousands to come and purchase our lands. Wisconsin is the great Western State of this, our Union, and thousands are looking toward us. Invest your money in lands that can be purchased at low prices.

I have seven thousand five hundred acres of farming lands in the Northern and Western parts of our State, which I am instructed to sell at reduced prices. The lands principally are in good neighborhoods, and within short distance of railroads. I have also improved farms to sell, and I also am ready to act as agent for any who have lands and farms for sale; send in your list, with a full description of your property, improvements, price, terms, &c., and I will pay that attention it requires. A NEW **Hoop and Rattan Machine!!**

THE SUBSCRIBER HAS SUCCEEDED in producing Machines for the purpose of splitting and dressing Hoops. The principles developed in the Machines are admired by mechanics for simplicity, and durability, as well as in light power required to operate them. Instead of the reciprocating or vibrating motion of the splitting Knife applied to opening the pole, with a perfect and simple arrangement for entering it, and requiring no alteration in splitting the smallest hoop to large head hoops, and is equally well adapted to splitting Rattans, Osiers, Willows and Basket Stuff. The Machines have received the highest premiums at the late Fairs at Boston and Baltimore.

$1,500.

ANY PERSON HAVING A PIECE OF good productive real estate in Milwaukee, which they would like to exchange for a tract of land 5 miles from the city, (being 35 acres of timber and 5 acres under cultivation, with large house, beautifully situated on the lake), and $1,500 in cash, will hear of a good opportunity by applying to OGDEN & CLARKE. dec7k3b6dtf Under the Newhall House.

MRS. BRYAN'S SEMINARY,

BATAVIA, N. Y.,

ESTABLISHED 1832.—WINTER TERM December 19th, 1860. Number of Boarding Pupils limited to THIRTY.

CITY LAND OFFICE.

SIX THOUSAND ACRES OF DEEDED Farming Land in the State of Wisconsin—Lands selected and entered several years ago.

I am instructed by the owner to sell said lands at any price, and on such terms that any one, who has any spark of "Go Ahead," can secure for himself and family a home. Who should not have more independent than the farmer. Of all occupations to create love and love for our country, agriculture is the best. It enables those who pursue it to live a fuller and freer independent life. It is less exposed to temptation. If the multitudes who are hard run to get bread would leave this and other beef up cities and occupy and improve the thousands of acres of fine land in our country, yet uncultivated, it would greatly enhance individual happiness and public good. Try it, ye starved ones.— If you are disappointed, then blame no prophet. Call at my Land Office, and inquire about the lands I have for sale. CALEB WALL, General Agent of Milwaukee.

ATWOOD'S QUININE TONIC BITTERS.

The Best Aromatic Tonic ever Offered to the Public,

RECOMMENDED BY THE FACULTY FOR ITS **Superior Medicinal Qualities.**

THIS ELEGANT COMPOUND, WHICH has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various tonics and stomachics, and cannot fail to meet the wants of the debilitated.

It is a mild tonic to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases, and in fever and ague, or kindred complaints, its aid is invaluable.

For diarrhoea, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.

One of the very best Physicians in Boston has said "*that it is the preparation of Bitters that has ever been offered to the public.*"

Put up in half pint as well as quart bottles, in order that all may convince themselves of its superior merits.

For further particulars reference is made to the printed circulars.

MONETARY.

FRIDAY P. M., Dec. 14th, 1860.

The banks in this city to-day reduced the rate of discount on Illinois currency to 2 ₩ cent., and advanced the rate of Eastern Exchange to 5 ₩ cent. Our merchants have been all along taking the bills of Illinois solvent banks at par. This advance in exchange by the banks was doubtless to guard against an influx of Illinois currency to buy exchange, should they at any time within the immediate future have any of that article to sell. The selling rate of exchange has been practically as high as 5 prem. for some time past, and as the regular banks have not been selling any, this advance is simply a measure of precaution on their part in reducing the rate of discount on Illinois currency. This is the first response of our market to the favorable change that has recently taken place at New York, and gives us reason to hope that it may be speedily followed by other evidences of returning confidence.

We have before alluded to the expedient resorted to by some of our merchants to avoid the present high rates of exchange, of buying and shipping flour and pork on their own account, and spoken of it as fraught with some risk to parties unfamiliar with that sort of business. The New York *Post* relates an instance of this kind:

It is worthy of note, among the many expedients which business men are compelled to resort to in times like the present, that a Western merchant in tending to meet a payment to a New York house, rather than submit to the onerous rates of exchange, brought with him five hundred barrels of flour, expecting to turn it into cash here, but now finds the sacrifice which he will be obliged to make much greater than the large premium of exchange. The derangement of the produce business at this point has seldom involved greater sacrifices than now, and it is not surprising that the wealthiest houses succumb.

MONEY AND STOCKS AT NEW YORK.

(*By telegraph to the Sentinel.*)

NEW YORK, Dec. 14.

Financial affairs have a more hopeful appearance to-day, especially in the Foreign Exchange market, which has a stronger undertone than for two weeks past. The demand for bills on London has greatly improved, and a large business has been done at 1,02½ @1,03½ for prime commercial bills. The leading drawers are doing little direct, their rates—1,04@1,05—being above the views of remitters. The inquiry is chiefly for cheap good bills. On Paris, however, there is not a corresponding advance. Francs are still quoted at 5,50@5,55. In the paper market there is less pressure, and a number of the old buyers are again making their appearance. Rates, as yet, do not yield materially, but there is much more currency than early in the week. The new Croton Water loan of $20,000,000 was to-day awarded at from par to three per cent premium. At the Second Board Stocks were generally lower and dull. U S 5's, 15,000 shares sold, C & R I 47; C & T 21½; I C scrip 58½; M S 13½; Read 33; S 6½; Hud 39½; M & M 8; Pacific Mail 70; Tenn 6's 72½; U S 5's of '71 56; G & C 62; C C & C 90; Erie 25½; N Y C 72½; Mo 6's 57; U S 5's 74.

MONEY MATTERS AT CHICAGO.

The *Tribune*, of this morning, says:

This has added another to the list of the dullest days of the season. There is no paper offering, no exchange making and very little selling. The wants of customers at present enormous rates are small and the ability of the bankers to furnish it ditto. Everybody seems waiting for "something to turn up" and what that something is nobody pretends to guess. There is no feeling of special despondence to-day among bankers and business men so far as we could observe, but simply utter and complete inaction on every side. There seems to be nothing to do, with plenty of help to do it.

Exchange to-day was sold very sparingly to customers at 10 per cent. premium. The buying rate is nominal at 7@8, though some of our largest bankers have paid full storing rates. Gold is nominal at 5 per cent. premium buying and 10 per cent. selling rate.

THE SECURITIES PUT UP.—The following certificate explains itself:

AUDITOR'S OFFICE, SPRINGFIELD, Dec. 12, 1860.

I hereby certify that the Bank of Naperville has this day paid the amount of the call of the Bank Commissioners upon it by retiring circulation.

[Signed] JESSE K. DUBOIS, Auditor.

It is likely that the banks on which the call was made will, with perhaps the exception of those that were thrown out, and were thereby crippled in their means, respond promptly to the call of the Auditor. It was understood that some of the rejected banks would also respond. We shall know soon.

COMMERCIAL.

FRIDAY P. M., Dec. 14, 1860.

The receipts of flour and grain here for the past 24 hours, exclusive of the deliveries by teams, have been from the following sources:

	Flour, bbs.	Wheat, bus.	Oats, bus.	Corn, bus.	Barly, bus.	Rye, bus.
Mil. & Miss. R. R.	53	1,141	....	655	....	96
LaC. & M. R. R.	542	1,572	141	70	433	....
M. W. & B. V. R. R.	5	195	....	....	....	....
M. & C. R. R.	....	....	....	....	....	....
By Lake	....	932	....	....	....	....
Total	600	4,293	141	723	433	96

The wheat market to-day was irregular, but the tendency rather upward, and sellers generally disposed to hold. Previous to the meeting on 'Change, about 10,000 bus changed hands at 71@72c for No. 1 spring in store, and 79@80c for Extra Club delivered. On Change a rumor was prevalent that as high as 75c had been paid for several thousand bus No 1 in store, but as the parties supposed to have made the sale, did not report any such transaction, we can not vouch for its authenticity. At any rate it served to strengthen the market considerable, for there were no sellers afterwards to be found at the morning prices. Flour was higher, but owing to the same influences that operated to restrict operations in the wheat market, very little business was done. Sales of a couple of small lots of very good spring Extra were reported at $3,75 @4,00.

Receipts of dressed hogs were 193 head. The market was not better, although sales show a wider range in prices, buyers paying $5,25 per cwt for medium, and $5,37@5,40 for very heavy hogs.

CHICAGO MARKET, DECEMBER 13.

Receipts at Chicago, yesterday, included 1,727 bbls flour, 5,615 bus wheat, 5,731 bus corn, 87 dressed and 2,337 live hogs. In reference to the market the *Tribune* says:

The market for Live hogs was very firm, and sales ranged from $4,50@4,75 for fair to extra. About 1,800 head were held by two parties at higher figures, but they were not sold, and the owners resolved to ship them East rather than let them go at the ruling figures. Dressed hogs were very firm, and an advance of about 10c was paid for extra lots—sales ranging from $5,25@5,62½.

The provision market continues quiet. Mess pork is generally held firmly at $15, at which we note a sale of 50 bbls. Lard is quiet and nominal at 10c. The demand which existed a few days ago to make eastern exchange has fallen off considerably—dry goods and grocery men having turned their attention here to flour.

The wheat market opened very buoyant, and prices run up 1@2c above the closing quotations of yesterday; but as this improvement was not justified by the New York dispatches, as soon as they were received the market receded, and the advance was entirely lost. About 50,000 bus changed hands at 75@76½c for No. 1 spring and 71@73½c for No. 2 do—the market closing at 71@72c for No. 2. Corn was held at an advance of 1c, but the transactions were light at 29c for mixed in store. Barley in fair demand at 45 @50c delivered. The flour market was active and 5 @10c higher. The improvement in New York has brought into the market quite a number of outside parties—anxious to make exchange—and about 3,500 bbls were sold at $3,80@4 for fair to choice spring extras.

HOGS AND PROVISIONS AT CINCINNATI.

From the *Gazette* of Thursday morning:

In the general markets to-day, the pork trade was the first to respond to the news from New York. The market closed yesterday with holders asking $5, and buyers offering $4,75 for good hogs. Prices were slightly harder this morning, owing partly to good weather, with sales of about 500 head in lots, averaging 200 to 220 lbs., at $5, and 220, averaging 155 lbs., at $4,75. As soon as the Eastern dispatches were read, buyers took all that were offered at $5,25, and two lots of extra heavy sold at $5 50, closing with holders firm at these figures, but buyers were not so numerous as earlier in the day. Packers, in view of the scarcity of money, and in anticipation of heavier receipts, are, to a considerable extent, unwilling to buy; yet no assurance that the improved feeling in financial affairs will be permanent. There were buyers, however, for all the hogs that were in market to-day at our quotations; but confidence is so weak, and dealers so nervous, that the aspect of the trade may undergo an entire change at any hour. Receipts 7,000 head. Green meats were firmer, with sales at 4½c for shoulders; 5½@6c for sides, and 6½@6¾c for hams. There was considerable inquiry for mess pork at $13,50, but good brands were held firmly at $14. Lard 9½c for bbl, with a moderate inquiry. Bulk meats 5@5½ for shoulders, and 6¾ for sides.

COFFEE—Without important change.

MOLASSES—Continues steady.

SUGAR—Steady.

MARINE NEWS.

TO BE LAID UP.

After her next arrival at Grand Haven, we understand it has been determined to lay up the steamship *Detroit* for a short period. The reason for this is that the present obstructions at the entrance of the harbor at Grand Haven prevent the steamers from running with that regularity during the prevalence of strong western winds at this season of the year necessary to ensure a sufficient share of passenger traffic to warrant the company in going to the expense of running their large steamers when the freight business can be done fully as well by small propellers. The *Detroit* as well as her consort the *Milwaukee* is to undergo various improvements while laying up at Grand Haven.

The steamship *Detroit* arrived from Grand Haven at 10:30 Thursday night, and left here on her return at 8 o'clock last evening. She had a pleasant trip, crossing the lake in about the usual time. The propeller *Quincy* also left here yesterday afternoon for Grand Haven, loaded with flour and hides. Should the weather continue favorable enough to enable them to get out of Grand Haven, one or both of them will be back here to-night.

THE DETAINED CANAL FLEET—NEARLY SIX HUNDRED BOATS LOADED EAST OF SYRACUSE.

The Syracuse *Journal*, of Saturday afternoon, says: Mr. O. F. RICKARD, a boatman, residing at Nunda, Livingston County, gives us some interesting information concerning the detained loaded boats on the Erie Canal between this city and Albany. Mr. RICKARD left Albany on Wednesday afternoon at four o'clock, on horseback, for his home in Livingston County. He rode his horse the entire distance from Albany to this city, following the tow path, and arriving here at three o'clock yesterday afternoon. He counted the loaded canal boats along the route, and reports to us that from Albany to Utica, the number was *five hundred and twenty-eight*, and from Albany to Syracuse, *five hundred and eighty-five*. There were crowds at various points, and the largest crowd was at Schoharie Creek, numbering one hundred and thirty-one boats. Here the ice was five inches thick, and there was no prospect of getting through to the Hudson.— He thought that a few of the boats, perhaps thirty or forty that were east of Philip's Lock, would get to Troy this week; but the boatmen had relinquished all expectation of proceeding further this season.

The greater part of the boats shut in are loaded with grain. There were twenty boats loaded with barrels of apples, among the number. The apples were to be transhipped, and carried to market by the railroad.— The efforts of many of the boatmen had for several days been chiefly expended in trying to get to favorable places for transhipping their cargoes.

MISCELLANEOUS.

From the Detroit *Tribune* of Wednesday evening:

The *John Thursby* had been one, but was unable to get through, and returned to the river, where she is now anchored. The ice had cut into her planks one inch and a half for half her length, although she was cut less than two hours.

The masters of the *Thursby* and *Grenada*, upon the advice of Capt. Kimball, came up to the city and entered into a contract with the steamer *Ottawa* to break through the ice. She is to take the schooners 25 miles for $125.

The *Falo Alto*, reported ashore at Grosse Isle, has got off, and is now safe at Wyandotte.

The *Free Trader* is sunk in Maumee Bay, inside of Turtle Island. The disaster occurred in consequence of letting go her anchor, when the ice came down upon her and dragged her ashore. The little propeller *Clara* was trying to get her off.

We learn that the bark *Quebec*, which went ashore during the late storm at Nine Mile Point, on Lake Ontario, has been got off, and was yesterday towed into Clayton, without having sustained any material damage.

There is little or no ice running at present in the river, the weather for the past two or three days having somewhat moderated. We learn, however, that between the islands and Detroit River, the ice is floating in large quantities.

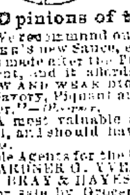
SOYER'S SULTANA'S SAUCE. For Hot and Cold Dishes of all Kinds.



THIS MOST DELICIOUS and appetising Sauce, invented by the renowned "SOYER," for the London Reform Club, is, since his decease, manufactured by the well known house of CROSSE & BLACKWELL, London, from the original recipe. It is the favorite sauce in England and on the Continent, with a high and growing reputation among American Epicures, and is much approved of as a stimulant to the appetite and aid in digestion.

Opinions of the London Press.

"We recommend our correspondent to try MONS. SOYER's new Sauce, entitled the 'Sultana's Sauce.' It is made after the Turkish recipe; its flavor is excellent, and it affords considerable aid in cases of SLOW AND WEAK DIGESTION."—*The Lancet.*

"Savory, Piquant and Spicy, worthy the genius of Soyer."—*Observer.*

"A most valuable adjunct to Fish, Flesh and Fowl, and should have a place on every table."—*Atlas.*

This caution is rendered essentially necessary, as large quantities of inferior and defective Linens are prepared, season after season and sealed with the name of RICHARDSON, by Irish Houses, who, regardless of the injury thus inflicted alike on the American consumer and the manufacturers of the genuine Goods, will not readily abandon a business so profitable while purchasers can be imposed on with Goods of a worthless character. MISCELLANEOUS.

THE AMALGAMATION OF LANGUAGES.—There is a growing tendency in this age to appropriate the most expressive words of other languages, and after a while to incorporate them into our own: thus the word Cephalic, which is from the Greek, signifying "for the head," is now becoming popularized in connection with Mr. Spalding's great Headache remedy, but it will soon be used in a more general way, and the word Cephalic will become as common as Electrotype and many others whose distinction as foreign words has been worn away by common usage until they seem "native and to the manor born."

'ardly Realized.

Hi 'ad 'n 'orrible 'eadache this hafternoon, hand I stepped into the hapothecaries hand says hi to the man "Can you hease me of an 'eadache?" "Does it hache 'ard," says 'e. "Hexceedingly," says hi, hand upon that 'e gave me a Cephalic Pill, hand 'pon my 'onor it cured me so quick that I 'ardly realized I 'ad 'ad an 'eadache.

HEADACHE is the favorite sign by which nature makes known any deviation whatever from the natural state of the brain, and viewed in this light it may be looked upon as a safeguard intended to give notice of disease which might otherwise escape attention, till too late to be remedied; and its indications should never be neglected. Headaches may be classified under two names, viz: Symptomatic and Idiopathic. Symptomatic Headache is exceedingly common and is the precursor of a great variety of diseases, among which are Apoplexy, Gout, Rheumatism and all febrile diseases. In its nervous form it is sympathetic of disease of the stomach constituting *sick headache*, of hepatic disease constituting *bilious headache*, of worms, constipation and other disorders of the bowels, as well as renal and uterine affections. Diseases of the heart are very frequently attended with Headaches; Anaemia and plethora are also affections which frequently occasion headache. Idiopathic Headache is also very common, being usually distinguished by the name of *nervous headache*, sometimes coming on suddenly in a state of apparently sound health and prostrating at once the mental and physical energies, and in other instances it comes on slowly, heralded by depression of spirits or acerbity of temper. In most instances the pain is in the front of the head, over one or both eyes, and sometimes provoking vomiting; under this class may also be named *Neuralgia*.

For the treatment of either class of Headache the Cephalic Pills have been found a sure and safe remedy, relieving the most acute pains in a few minutes, and by its subtle power eradicating the diseases of which Headache is the unerring index.

BRIDGET.—Missus wants you to send her a box of Cephalic Glue, no, a bottle of Prepared Pills,—but I'm thinking that's not just it naither; but perhaps ye'll be after knowing what it is. Ye see she's nigh dead and gone with the Sick Headache, and wants some more of that same as relaived her before.

Druggist.—You must mean Spalding's Cephalic Pills.

Bridget.—Och! sure now and you've sed it, here's the quarther and give me the Pills and don't be all day about it aither.

Constipation or Costiveness.

No one of the "many ills flesh is heir to" is so prevalent, so little understood, and so much neglected as Costiveness. Often originating in carelessness, or sedentary habits; it is regarded as a slight disorder of too little consequence to excite anxiety, while in reality it is the precursor and companion of many of the most fatal and dangerous diseases, and unless early eradicated it will bring the sufferer to an untimely grave. Among the lighter evils of which costiveness is the usual attendant are Headache, Colic, Rheumatism, Foul Breath, Piles and others of like nature, while a long train of frightful diseases, such as Malignant Fevers, Abcesses, Dysentary, Diarrhoea, Dyspepsia, Apoplexy, Epilepsy, Paralysis, Hysteria, Hypochondriasis, Melancholy and Insanity, first indicate their presence in the system by this alarming symptom. Not unfrequently the diseases named originate in Constipation, but take on an independent existence unless the cause is eradicated in an early stage. From all these considerations it follows that the disorder should receive immediate attention whenever it occurs, and no person should neglect to get a box of Cephalic Pills on the first appearance of the complaint, as their timely use will expel the insidious approaches of disease and destroy this dangerous foe to human life.

A Real Blessing.

Physician.—Well, Mrs. Jones, how is that headache?

Mrs Jones.—Gone! Doctor, all gone! the pill you sent cured me in just twenty minutes, and I wish you would send more so that I can have them handy.

Physician.—You can get them at any Druggist's. Call for Cephalic Pills, I find they never fail, and I recommend them in all cases of Headache.

Mrs Jones.—I shall send for a box directly, and shall tell all my suffering friends, for they are a *real blessing.*

TWENTY MILLIONS OF DOLLARS SAVED.—Mr. Spalding has sold two millions of bottles of his celebrated Prepared Glue, and it is estimated that each bottle saves at least ten dollars worth of broken furniture, thus making an aggregate of twenty millions of dollars reclaimed from total loss by this valuable invention. Having made his Glue a household word, he now proposes to do the world still greater service by curing all the aching heads with his Cephalic Pills, and if they are as good as his Glue, Headaches will soon vanish away like snow in July.

OVER EXCITEMENT, and the mental care and anxiety incident to close attention to business or study are among the numerous causes of Nervous Headache. The disordered state of mind and body incident to this distressing complaint is a fatal blow to all energy and ambition. Sufferers of this disorder can always obtain speedy relief from these distressing attacks by using one of the Cephalic Pills whenever the symptoms appear. It quiets the overtasked brain, soothes the strained and jarring nerves, and relaxes the tension of the stomach which always accompanies and aggravates the disordered condition of the brain.

FACT WORTH KNOWING.—Spalding's Cephalic Pills are a certain cure for Sick Headache, Bilious Headache, Nervous Headache, Costiveness and General Debility.

GREAT DISCOVERY.—Among the most important of all the great medical discoveries of this age may be considered the system of vaccination for protection from Small Pox, the Cephalic Pill for relief of Headache, and the use of Quinine for the prevention of Fevers, either of which is a pure specific, whose benefits will be experienced by suffering humanity long after their discoverers are forgotten.

DID you ever have the Sick Headache? Do you remember the throbbing temples, the fevered brow, the loathing and disgust at the sight of food. How totally unfit you were for pleasure, conversation or study. One of the Cephalic Pills would have relieved you from all the suffering which you then experienced. For this and other purposes you should always have a box of them on hand to use as occasion requires.

Cephalic Pills CURE Sick Headache CURE Nervous Headache CURE All kinds of Headache.

By the use of these Pills the periodic attacks of *Nervous or Sick Headache* may be prevented; and if taken at the commencement of an attack immediate relief from pain and sickness will be obtained.

They seldom fail in removing the *Nausea* and *Headache* to which females are so subject.

They act gently upon the bowels,—removing *Costiveness.*

For Literary Men, Students, Delicate Females, and all persons of *sedentary habits*, they are valuable as a *Laxative*, improving the *appetite*, giving *tone* and *vigor* to the digestive organs, and restoring the natural elasticity and strength of the whole system.

The CEPHALIC PILLS are the result of long investigation and carefully conducted experiments, having been in use many years, during which time they have prevented and relieved a vast amount of pain and suffering from Headache, whether originating in the *nervous* system or from a deranged state of the *stomach.*

They are entirely vegetable in their composition, and may be taken at all times with perfect safety without making any change of diet, *and the absence of any disagreeable taste renders it easy to administer them to children.*
